

MATJHABENG LOCAL MUNICIPALITY

THE OFFICE OF THE SPEAKER

2016 will see South Africans taking to polls to participate in the fourth democratic local government elections.

Since 2000 when we introduced the system of a developmental local government, South Africans - old and young, male and female, black and white, rural and urban, employed and unemployed - have taken it upon themselves to ensure they shape our own destiny to a national democratic society.

Through their vote, we have built houses, electrified homes, installed water within households and replaced the bucket system with sanitation.

Our country and our municipality comprise largely of young people. The future belongs to youth. We call on all young people to take their identity documents and register at their IEC office on 05-06 March 2016.

To those who registered previously, SMS your ID number to **32820 to confirm that you are registered at the right voting district. Those who changed residences or were affected by Ward delimitations also need to re-register at the right voting stations.**

LOCAL GOVERNMENT ELECTIONS 2016
