## REQUEST FOR PROPOSALS RFP NO: 01/03/2012

### **REQUEST FOR PROPOSAL NO: 01/03/2012 THE INVESTIGATION AND THE SOLVING OF SUB-SOIL WATER PROBLEMS OF KUTLWANONG AND MELODING THAT ARE CAUSING STRUCTURAL DAMAGE TO HOUSES.**

Proposals are hereby invited from registered professional consultants with geo-hydrological and civil experience to investigate and solve the sub-soil water problems that are causing structural damage to houses in Kutlwanong and Meloding.

#### **Scope of Work**

Kutlwanong and Meloding townships have large numbers of houses with structural damage that was caused by sub-soil water.

It is requested that the cause of the rising sub-soil water be investigated and that a solution be found on how to solve or mitigate the impact of the sub-soil water on the civil structures.

The proposal should also include the impact that other civil engineering services like roads and storm water may have on the sub-soil water levels and how to solve or mitigate the impact.

#### **Fees**

The professional fees must include for the feasibility study, test bore holes, laboratory test, survey, design, compiling of tender documents, evaluation of tenders, contract administration (supervision and compilation of payments certificates) and compilation of final account.

**Complete proposals in duly sealed envelopes and clearly marked:  
REQUEST FOR PROPOSALS NO: 01/03/2012: THE INVESTIGATION AND THE SOLVING OF SUB-SOIL WATER PROBLEMS OF KUTLWANONG AND MELODING THAT IS CAUSING STRUCTURAL DAMAGE TO HOUSES**

**CLOSING DATE: Thursday, 05 April 2012 at 12:00  
MUST BE ADDRESSED TO:**

The Municipal Manager                      or  
P O Box 708  
WELKOM  
9460

The Tender Box  
Entrance Hall  
Municipal Offices  
Stateway  
WELKOM 9460

#### **EVALUATION CRITERIA:**

- ❖ Registered with ECSA.
- ❖ Must have ISO Accreditation.
- ❖ Attach Tax Clearance Certificate (Original).
- ❖ Company Registration Certificate.

- ❖ Qualifications of Consultant must include Geo-hydrological & CIVIL structure Qualifications.
- ❖ Must have experience in the successful completion of Geo-hydrological projects associated with structural damage.
- ❖ The quality of any proposed construction / materials must be SANS approved.
- ❖ Proposals must have a reasonable cost, consulting fees and all other expected costs should also form part of the proposal. ( i.e. surveys, laboratory costs)
- ❖ The proposals will also be assessed on the practicality of the implementation and the expected duration of the project.
