1. PURPOSE OF THE PROCESS

The Municipal Systems Act as promulgated in 2000 describes the various core processes that are essential to realizing a system of developmental local government. These aspects include participative governance, IDP, performance management and reporting, resource allocation and organizational change. These processes are linked into a single cycle at the local level that will align various sectoral initiatives from national and provincial government departments with municipalities own capacities and processes.

Therefore, the purpose of this document is to outline the operational plan (an integrated 'Process plan') for the development of Integrated Development Plan for Matjhabeng Local Municipality. This process plan is based on the unique character and circumstances of Matjhabeng Local Municipality, taking due cognizance of the process plan requirements as outlined in the Municipal Systems Act (S 34) and guidelines for Integrated Development Planning provided by National Department of Cooperative Governance (DCOG).

In order to ensure certain minimum quality standards of the Integrated Development Plan (IDP), and a proper coordination between and within spheres of government, the preparation of the Process Plan has been regulated in the Municipal Systems Act (2000). The preparation of a Process Plan, which is in essence the IDP Process sets out in writing, requires adoption by Council. This plan has to include the following, amongst others:

- A programme specifying the time frames for the different planning steps;
- Appropriate mechanisms, processes and procedures for consultation and participation of local communities, organs of state, civil society, and other role players in the IDP drafting Process;
- An indication of the organizational arrangements for the IDP Process;
- Binding Process and planning requirements, i.e. policy and legislation; and
- Mechanisms and procedures for vertical and horizontal alignment.

2. LEGAL CONTEXT OF IDP PROCESS PLAN

THE INTEGRATED DEVELOPMENT PLAN

Chapter 5 and Section 25 (1) of the Municipal Systems Act (2000) indicates that:

Each Municipal council must, within a prescribed period after the start of its elected term, adopt a single, all inclusive and strategic plan for the development of the municipality which-

- a. *Links integrates and coordinates plans and takes into account proposals for the development of the municipality;*
- b. *Aligns the resources and capacity of the municipality with the implementation of the plan;*

- c. *Complies with the provisions of this Chapter; and*
- d. *Is compatible with national and provincial development Plans and planning requirements binding on the municipality in terms of legislation.*

In terms of the core components of Integrated Development Plans, Chapter 5 and Section 26) of the Municipal Systems Act (2000) indicates that:

An integrated development plan must reflect-

- a. *The Municipal council's vision for the long term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;*
- b. *An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic Municipal services;*
- c. *The council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;*
- d. *The council's development strategies which must be aligned with any national and provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;*
- e. *A spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality;*
- f. *The council's operational strategies;*
- g. *Applicable disaster management plans;*
- h. *A financial plan, which must include a budget projection for at least the next three years; and*
- i. *The key performance indicators and performance targets determined in terms of section 41.*

3. THE ANNUAL BUDGET

- 3.1. The Annual Budget and the IDP are inextricably linked to one another, something that has been formalized through the promulgation of the Municipal Finance Management Act (2004). Chapter 4 and Section 21 (1) of the Municipal Finance Management Act (MFMA) indicate that:

The Mayor of a municipality must-

- a. *At least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for-*

- i. *The preparation, tabling and approval of the annual budget;*
- ii. *The annual review of-*
 - aa. *The integrated development plan in terms of section 34 of the Municipal Systems Act; and*
 - bb. *The budget related policies.*
- iii. *The tabling and adoption of any amendments to the integrated development plan and the budget-related policies; and*
- iv. *The consultative processes forming part of the processes referred to in subparagraphs (i), (ii) and (iii).*

3.1 ALIGNMENT OF THE IDP, BUDGET AND PERFORMANCE MANAGEMENT PROCESSES

1. Every attempt will be made in this Municipal Plan to align the IDP and Budget preparation process, and the Performance Management System (PMS). The linkages of the three processes are summarised in the following diagram:

Figure 1: The IDP, Budget and PMS Linkages

Figure 2: Relative Process Flow

4. KEY ELEMENTS TO BE ADDRESSED IN THIS PROCESS

The following is a summary of the main activities to be undertaken during this IDP Process:

4.1 ANALYSIS

- A comprehensive situational analysis that take into account inter-alia; Socio-economic, development, levels of service, ect.
- Comments received from the various role-players in the assessment of the IDP Generations;
- Shortcomings and weaknesses identified through self-assessment.

4.2 REVIEW AND DEVELOPMENT OF THE STRATEGIC ELEMENTS OF THE IDP IN TERMS OF COUNCIL'S NEW PRIORITIES

- Review of the Vision, Mission and Objectives;
- Review of the Strategic elements of the IDP;
- Finalize the refinement of SDF and Land Use Management;
- Development of the Spatial Development Framework;
- Development of Housing Sector Plan(Chapter)
- Development of Transport Master Plan
- Development of Integrated Waste Management Plan
- Development of Energy Plan
- Review Water Service Development Plan
- Organisational Structure

4.3 INCLUSION OF NEW INFORMATION WHERE NECESSARY

- Addressing areas requiring additional attention in terms of legislative requirements not addressed during the previous generations of the IDPs (i.e. SPLUMA);
- Alignment of the IDP with newly completed Sector Plans;
- Review of the Strategic elements of the IDP;
- The ongoing alignment of the Performance Management System (PMS), in terms of Chapter 6 of the MSA, with the IDP;
- The update of the Financial Plan, the list of projects (both internal and external funded), and the capital investment framework; and

4.4. HORIZONTAL AND VERTICAL ALIGNMENT

4.4.1. FRAMEWORK PLAN

In terms of Chapter 5 and Section 26 of the Municipal Systems Act (2000), Districts are required to prepare and adopt a Framework Plan which indicates how the District and Local Municipalities will align their IDP's. The Framework Plan provides the linkage and binding relationships to be established between the district and local municipalities in the region, and in doing so, proper consultation, coordination and alignment of the review process of the district municipality and various local municipalities can be maintained.

4.4.2. ALIGNMENT WITH SERVICE PROVIDERS

Alignment with Service Providers is essential in order that the DM and LM's priorities can be reflected in their project prioritization process, as well as so that their projects can be reflected in the IDP documentation. It is anticipated that one Service Provider Forums (SPF's) will be held during the round of the IDP process on **THE PROCESS PLAN**, as well as a series of one-on-one meetings with key departments.

5. IDP DEVELOPMENT APPROACH

The suggested approach for IDP development process according to DCOG Revised Framework and Circular 25 of 2016 is as follows:

At the core of this framework is a process (see figure 1 below) designed to improve the next generation of IDPs (2017-2022). It is expected that these 5 year plans will be in a position to address priorities of the National Development Plan in local spaces.

Figure 2: Sector Planning and Integration

(i) Preparing for IDP development

Before the process commences, certain arrangements have to be made to ensure that the process will run smoothly. Such a process needs to be properly organized and prepared. It needs some business plan:

- Assigning role and responsibilities ;
- Organisational arrangements including confirmation of IDP Steering Committee and procedures , mechanisms for community and stake holder participation;
- Design mechanism and procedures for alignment with external stakeholders such as other municipalities and other spheres of government;
- Designing a programme which sets out the envisaged planning activities, , time frames and resource requirements for planning process;
- Once a process plan is being developed, it has to be adopted by the municipal council in terms of the municipal Systems Act, 2000.

(ii) Monitoring

Monitoring in the context of IDP process refers to the gathering and subsequent organising the data into sets of information about the certain sets of action/events/situations throughout the year.

There are three main bodies of information, which are important as input into a process, viz:

- Implementation management information;
- Information about the achievement of objectives set in the IDP;
- New information gathered in the IDP reviews.

(iii) Evaluation (What does the information tells us)

The information gathered during the process of monitoring described above is assessed to understand its relevance and its implications to the priority issues, objectives, indicators and targets. The irrelevant and incorrect information should be discarded. The relevant information is analysed and synthesized for its relevance to the IDP.

(iv) Council Adoption of the IDP

The IDP has to be adopted and approved by the Municipal Council.

(v) Prepare and adopt Annual Budget

Municipal Systems Act, 2000 (Chapter) and Municipal Finance Management Act requires the Municipal Council budget to be informed by the IDP. This means the annual municipal budget should reflect the objectives, strategies, projects and programmes contained in the IDP.

(vi) Time frame

The total amount of time required for IDP development process should be nine months. As the IDP should significantly inform the budget, the timing of the IDP should be coordinated closely with the structuring of the annual budget process that starts in July each year.

The venues for these meetings will be publicized at the Municipal Website as well as through the media. The extensive ward based public participation process which will concurrently with budget process.

Conclusion

The development of credible IDPs depends on sector plans developed in line with the logical approach reflected in figure 2. This particular logic acknowledges that there is an inherent relationship between the different sector plans which must be forged and without which a truly integrated plan would not be possible to develop.
