REVISED ANNUAL REPORT TEMPLATE

The purpose of this revised Annual Report template is to address the need expressed by a number of municipalities for assistance in the preparation and development of improved content and quality of Municipal Annual Reports. This template provides an update to the MFMA Circular No. 11, issued in January 2005.

This template gives effect to the legal framework requirement, concepts and principals espoused in the White Paper on Local Government and Improving Government Performance. It reflects the ethos of public accountability. The content gives effect to information required for better monitoring and evaluation of government programmes in support of policy decision making. The template provides an improved overview of municipal affairs by combining the performance report data required under Municipal Systems Act Section 46 with annual report data referred to in that Act and in the MFMA.

The revised template makes its contribution by forging linkages with the Integrated Development Plan, Service Delivery and Budget Implementation Plan, Budget Reforms, In-year Reports, Annual Financial Statements and Performance Management information in municipalities. This coverage and coherence is achieved by the use of interlocking processes and formats.

The revised template relates to the Medium Term Strategic Framework particularly through the IDP strategic objectives; cross cutting nature of services offered by different spheres of government, municipal service outcome indicators; and the contextual material as set out in Chapters 3, 4 & 5. It also provides information on good management practice in Chapter 4; risk management in Chapter 2; and Supply Chain Management in Chapter 5; and addresses the Auditor-General's Report, dealing with Financial and Performance Management arrangements in Chapter 6. This opens up greater possibilities for financial and non financial comparisons between municipalities and improved value for money.

The revised template provides information on probity, including: anti-corruption strategies; disclosure of financial interests by officials and councillors; disclosure of grants by external parties, disclosure of loans and grants by municipalities. The appendices talk to greater detail including disaggregated information on municipal wards, among others. Notes are included throughout the format to assist the compiler to understand the various information requirements.

The financial years contained in this template are explained as follows:

- Year -1: The previous financial year;
- Year 0: The financial year of reporting;
- Year 1: The following year, mostly requires future targets; and
- The other financial years will follow a similar sequence as explained above.

We wish to express our gratitude to the members of the Annual Report Reference Group, consisting of national, provincial and municipal officials for their inputs and support throughout the development of this document.

MFMA Implementation Unit, National Treasury

July 2012

CHAPTER 1: EXECUTIVE MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: EXECUTIVE MAYOR'S FOREWORD

EXECUTIVE MAYOR'S FOREWORD

Cllr Sebenzile Ngangelizwe

It gives me great pleasure to present the 2nd Annual Report of Matjhabeng Local Municipality for the Council term of 2011 to 2016. The 2012/2013 financial year began with a firm commitment from both the political leadership and management of the institution to consolidate service delivery strides and progress achieved with regards to good governance during the previous financial years. On the other hand, there was also a firm commitment to simultaneously respond to challenges that continue to face us as a municipality in our endeavour to serve and improve the quality of life of the citizens of Matjhabeng. We remain unwavering in our quest and commitment to improve the life of our people, ensure good management practices and accelerate service delivery imperatives.

The Annual Report forges linkages between the Integrated Development Plan, Annual Financial Statements, In-year reports, Performance Management, Service Delivery and Budget Implementation Plan. For the financial year under review, there are notable improvements in certain areas of service delivery and good management practice. On the other hand, there are challenges that require attention in order to improve the audit findings and enhance the financial viability of the institution. Community development is the responsibility of all of us as members of the community, customers and all stakeholders. We earnestly believe that patriotism from all corners of our area should be the overarching drive towards social cohesion, accountability and unity.

The rate of payment for services rendered by the municipality remains unsatisfactory. We therefore call upon all consumers of our services to pay for such services. In this regards, we wish to thank all those households,

businesses and all citizens who continue to pay for their services in order to ensure that the Municipality is able to deliver services in line with its constitutional mandate. We also wish to thank all stakeholders who participated in our community engagement processes for the 2011 to 2016 IDP process and the 2012/2013 budget processes. We also welcome the participation of all stakeholders in the evaluation of the performance of the Municipality

in the past and therefore encourage all sectors of the community to continue to be involved in these processes in order to deepen democracy in our country.

We call upon some elements in our community to refrain from vandalizing municipal property because the institution is compelled to budget for the replacement of vandalized assets instead of using available resources for implementation of new projects. The central message is that we have a collective responsibility to improve our lives, make a difference during our lifetime and protect the environment within which we live.

I thank you

T 1.0.1

COMPONENT B: EXECUTIVE SUMMARY

1.1. MUNICIPAL MANAGER'S OVERVIEW

MUNICIPAL MANAGER'S OVERVIEW

Mr German Ramathebane

This 2012/13 Annual Report was compiled in line with the Local Government:

Municipal Systems Act No. 32 of 2000, the Local Government: Municipal Finance Management Act 56 No. of 2003, the National Treasury Circular No. 11, as well as the customized template and guidelines for municipal annual reports.

This Annual Report serves as a record of and accounting mechanism to communities on the Municipality's achievements and challenges, as well as the mitigation and remedial measures implemented to address the latter. While it reflects that progress has been made in service delivery, there are undeniable challenges. To strengthen and streamline the institution and its operations to enable the institution to expand and expedite service delivery to the residents of Matjhabeng Local municipality, *inter alia* the following interventions/actions will be prioritized in the year ahead:

- (a) Coordinated call centers to enable quicker and more targeted responses to community needs and complaints.
- (b) Review of Supply Chain Management structures, systems and processes.
- (c) Re-commitment to IGR Forums to strengthen intergovernmental relations.
- (d) Strengthening the Ward Committee System by providing administrative support.
- (e) Address the issue of the disclaimer audit opinion received from the Auditor-General and introducing corrective measures towards obtaining a better audit opinion.

- (f) Vigorously instilling a culture of performance within the institution.
- (g) Promoting financial discipline and management.
- (h) Addressing fraud and corruption in the institution through control systems and communication.

The municipality has to emerge as a model city and therefore needs a conglomeration of capabilities approach to integrate, build, and reconfigure internal and external competences to address rapidly changing environments. Our focus will be on developing the following five specific capabilities and the current institutional restructuring is a first step to achieving this objective.

1. A capability to think strategically so as to develop a foresight for the city, its spaces and peoples;
2. Performance Capability to execute strategy and perform specific actions on time, within scope, budget and based on high levels of quality through established processes, standards and systems;
3. Human capital Capability to develop, nurture and attract new talent and capability to motivate people to take actions that result in significant impact;
4. Integrated city development Capability to plan for a city and be responsive to citizens' needs and to manage the municipal area on a holistic basis; and
5. Utility Management Capability to manage trading services and corporatize these services.

As Accounting Officer of the institution, I would like to extend my heartfelt appreciation to the political leadership and staff of the Matjhabeng Local Municipality for their hard work and dedication, which culminated in the progress made by the institution during the 2012/13 financial year.

T 1.1.1

1.2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

INTRODUCTION TO BACKGROUND DATA

Amongst others, the Matjhabeng Local Municipality carries functions related to water, sanitation, electricity, refuse, housing, local economic development, roads, storm water drainage, and local planning approvals. The municipality does not have entities that assist it in the execution of these functions with the exception of water and electricity, where parastatals such as Sedibeng Water and Eskom do play a role.

T 1.2.4		

HISTORICAL OVERVIEW OF TOWNS WITHIN MATJHABENG

The municipality is made of six towns, namely:

WELKOM (THABONG)

Welkom has been the centre of the Free State Goldfields, serving several gold and uranium mines, since 1947. Following the discovery of gold in 1946, Welkom was founded in 1947 on the farm Welkom, with the word “Welkom” meaning welcome.

Welkom received municipal status in 1968. It was planned as a model town, with a horseshoe-shaped shopping and administrative district surrounding a park of 11ha. More than one million trees were planted in the town.

Centrally situated, Welkom is placed within comfortable distance from other major cities. Johannesburg is only 280 km away, while Bloemfontein is 175 km away. The traffic flow in the city has attracted much attention and experts from all over the world come to study the clever use of traffic circles and the minimal number of stop streets.

The absence of traffic lights in the centre of the city contributes to an effortless flow of traffic – the envy of many cities and the reason Welkom is known as the “*circle city*”. Welkom has also earned itself the reputation of being a “*city within a garden*” due to the number of parks and gardens that lend it an extraordinary number of shady trees and pleasant surroundings.

VIRGINIA (MELODING)

Virginia is situated on the banks of the Sand River. The town originated around the railway station, which was named after the hometown of two American railway surveyors from Virginia in the USA.

The town was established in 1954 and became the second largest town in the Goldfields area within three years. The name was retained when the town mushroomed in the 1950's following the discovery of gold. The farm's name, Merriespruit, was given to a suburb of Virginia.

Virginia is surrounded by some of the largest gold fields in the Free State, and mining, gold-extraction, plants, and the manufacture of sulphuric acid from gold ore dominates its economy. It is also known for having the world's deepest pipe-mine into the earth. Commercial farms in the surrounding area primarily grow maize and raise livestock.

VENTERSBURG (MAMAHABANE)

Ventersburg was named after a pioneer, PA Venter, of the farm Kromfontein, who died in 1857. Ventersburg's early history is closely connected to the history of the Reformed Church, as Ventersburg was Reformed Church congregation established in 1864.

The House of Assembly, on 6 May 1873, declared Ventersburg a town in the Winburg District. The Dutch Reformed Church was built in 1891 and GOT burnt down in 1900 with the occupation of the British of Ventersburg. A new Dutch Reformed Church was built in 1912. In 1903, Ventersburg Municipality was established. In 1939, Ventersburg was electrified.

ODENDAALSRUS (KUTLWANONG)

Odendaalsrus was the first town to be established in the Goldfields in 1912. By 1946, this small farming community had only 40 houses and three shops. However, the town exploded into life after the confirmed discovery of the richest gold reef in the world in April 1946 on the farm Geduld.

Situated between Kroonstad, Allanridge and Welkom, Odendaalsrus once formed the centre of mining activities in the area. Today a tranquil town with its own unique pulse, Odendaalsrus and Kutlwanong together boast a population of approximately 52 000.

HENNENMAN (PHOMOLONG)

Hennenman is unusual within Matjhabeng's economics make-up in that it has a well-balanced economy based mainly on agriculture, an anomaly in an area in which most income is derived from mining and industry.

Before the town was officially established, it was birthed as a railway station, Ventersdorp. This name was changed to Hennenman Station in 1927, after a prominent local farmer. The town began to grow in earnest after the discovery of gold between Hennenman and Odendaalsrus in 1946 and was proclaimed a municipality in 1947.

Hennenman and Phomolong have a population of approximately 25 000. Phomolong Township emerged from the forcefully removed old location near Hennenman town, which was then used as Ventersburg station.

ALLANRIDGE (NYAKALLONG)

Named in honour of the late Alan Roberts, whose pioneering geological and prospecting work was key in the eventual discovery of gold and the development of the Goldfields, Allanridge was founded as a settlement in 1947, although it was only proclaimed as a town in 1956.

Home of the Lorraine Gold Mine, one of the biggest in the Goldfields, Allanridge is a town of sunshine, and the thousands of flamingos who make the area their home provide natural beauty. Nyakallong location was established by the mineworkers working at Lorraine mine and started as a dwelling place only to have their permanent homes where they came from.

T 1.2.5

NATURAL RESOURCES	
MAJOR NATURAL RESOURCE	BENEFIT TO THE COMMUNITY
GOLD	There are a number of active mines which employ residents of Matjhabeng
URANIUM	Uranium and gold cannot be separated even though the region has not explored the uranium mining.

T.1.2.7

COMMENT ON BACKGROUND DATA:

The data clearly shows the municipality faces a number of challenges such as high levels of unemployment and consequently indigence. Amongst others this means the municipality's revenue base is likely to remain low, thus posing a threat on the municipality's ability to expand and improve the quality of services to its citizens.

T 1.2.8

1.3 SERVICE DELIVERY OVERVIEW

COMMENT ON ACCESS TO BASIC SERVICES:

Diagram not included – access to basic services handicapped by shortage of personnel, fleet, materials and tedious procurement processes.

T 1.3.3

1.4 FINANCIAL HEALTH OVERVIEW

Financial Overview

The Matjhabeng Local Municipality has received a disclaimer audit opinion for the past financial years of which the major qualifications were on property plant and equipment, investment property, service charges, trade and other payables, provisions, leases, consumer debtor, non-current debtors and expenditure. The municipality developed an Audit Query Action Plan to address the matter raised but still experienced challenges in order to achieve an improvement in the Audit Outcome.

The budget of the municipality has been compiled in compliance with Chapter 4 of the Municipal Finance Management Act 56 of 2003. The operating budget for the 2012/2013 financial year was R 1 617 317 571 and capital budget R255 978 000. The revenue as per the statement of financial performance was R1 711 492 511 and the expenditure at R2 051 931 962, which recorded an operating deficit of R398 260 168.

Financial Overview: Year 0			
			R' 000

1.5 STATUTORY ANNUAL REPORT PROCESS

No	Activity	Timeframe
1	Consideration of next financial year's Budget and IDP process plan. Except for the legislative content, the process plan should confirm in-year reporting formats to ensure that reporting and monitoring feeds seamlessly into the Annual Report process at the end of the Budget/IDP implementation period	July
2	Implementation and monitoring of approved Budget and IDP commences (In-year financial reporting).	

3	Finalize the 4th quarter Report for previous financial year	
4	Submit draft year 0 Annual Report to Internal Audit and Auditor-General	
5	Municipal entities submit draft annual reports to MM	
6	Audit/Performance committee considers draft Annual Report of municipality and entities (where relevant)	August
8	Mayor tables the unaudited Annual Report	
9	Municipality submits draft Annual Report including consolidated annual financial statements and performance report to Auditor General	
10	Annual Performance Report as submitted to Auditor General to be provided as input to the IDP Analysis Phase	
11	Auditor General audits Annual Report including consolidated Annual Financial Statements and Performance data	September – October
12	Municipalities receive and start to address the Auditor General's comments	November
13	Mayor tables Annual Report and audited Financial Statements to Council complete with the Auditor- General's Report	
14	Audited Annual Report is made public and representation is invited	
15	Oversight Committee assesses Annual Report	
16	Council adopts Oversight report	December
17	Oversight report is made public	
18	Oversight report is submitted to relevant provincial councils	
19	Commencement of draft Budget/ IDP finalization for next financial year. Annual Report and Oversight Reports to be used as input	January

T 2.1.2

POLITICAL DECISION-TAKING PROCESS

Council is the ultimate authority and/or decision-maker as per the provisions of the Constitution of the Republic of South Africa and other applicable laws governing the local government sector. A typical political decision-taking process usually begins with the Administrative Wing of the municipality which after having processed items will submit such to the Section 80 Committees for further processing.

Arising from the meetings of various Section 80 Committees will be an agenda that will be table before the Honorable Executive Mayor's advisory committee, namely, the Mayoral Committee, which will then submit its recommendations to Council for final decisions.

Depending upon the nature of a Council decision and/or decision, the general public will be consulted for inputs on the matters at hand before Council finally ratifies a matter under discussion. Public consultation assumes different forms, for example, it can be face to face meetings with the general public; or a platform can be created for the public make inputs (written or verbal); or can be through the sittings of the Ward Committees; or even through formal stakeholder engagements. Either way, whatever emerges from consultations with the general public must still find a way back into Council for consideration and final ratification.

In the event Council decisions need further action from the side of the administration of political office (in the form of the Executive Mayor's Office), progress report(s) are submitted to Council as part of the tracking of the efforts aimed at implementing the decisions of Council.

T 2.1.3

TOP ADMINISTRATIVE STRUCTURE

MUNICIPAL MANAGER
Mr. German Ramathebane

EXECUTIVE DIRECTOR: Strategic Support Services
Mr. Sam Makhubu

EXECUTIVE DIRECTOR: Infrastructure
Mr. Madoda Besani

EXECUTIVE DIRECTOR: LED & Spatial Planning
Mr. Xolela Msweli

ACTING CFO

Me. Lindsey Williams

EXECUTIVE DIRECTOR: Community Services

Me. Matiro Mogopodi

During the year under review, the Municipality employed the services of Ms. Fezeka Ntlemeza, who joined in February 2012 and left in April 2012.

The post of the Chief Financial Officer remains vacant, but during the year under review Ms. LB Williams and Mr. LB De Bruyn acted in the post interchangeably.

T2.2.2

COMPONENT B: INTERGOVERNMENTAL RELATIONS

INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

Cooperative Governance and Intergovernmental Relations (IGR) are important in that they foster relationships among the three spheres of government within the context of a unitary state, and the mechanisms to manage these relationships are legislated (see the Constitution of the Republic of South Africa of 1996, The Intergovernmental Relations Act, and other applicable laws.

The municipality is an active participant in various fora aimed at advancing cooperative governance and intergovernmental relations especially at the levels of both the District Municipality and Provincial Government (see T2.3.4 below for some specific references and details)

T 2.3.0

2.3 INTERGOVERNMENTAL RELATIONS

RELATIONSHIPS WITH MUNICIPAL ENTITIES

N/A

T 2.3.3

DISTRICT INTERGOVERNMENTAL STRUCTURES

The office of the Speaker participates in the District Public Participation Forum that sits quarterly. The forum allows the Speakers in the district to discuss a range of issues, including demarcation, public participation and governance. The forum has helped to eliminate tensions and disagreements over municipal outer boundaries as consensus was reached at this level.

At a technical level, the office participated in quarterly district and provincial public participation steering committees. These forums help service delivery through sharing of best public participation strategies implemented by other municipalities. Administratively, the municipality participates in a District Forum aimed at driving the Municipal Turn-Around Strategy (MTAS) as well as a similar forum managed by the Provincial COGTA.

Needless to say, the municipality is an active participant in the District and Provincial Integrated Development Plan (IDP) where social developmental agenda is being driven and the programs of the three spheres of government are being coordinated and a platform is created to incorporate national and provincial plans.

Lastly, the municipality participates in the Premier's Coordinating Forum where the province's developmental agenda and coordination are points of emphasis

T 2.3.4

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

The law provides that public representatives must convene ward constituency meetings quarterly to give feedback on the progress and challenges in the municipality. All the wards convened their constituency meetings in the last financial, although some did fall short of the legal requirement of four meetings a year, while others exceeded the target. Sector departments continue to consult the community on the drafting and implementation of the policies. The Office of the Executive Mayor has a program of imbizos, which reinforce the system of ward committee participation.

In addition, with a view to enhancing accountability, the municipality continues to place important documents like the IDP, Budget and the annual report at key strategic points for accessibility. During the year under review, a comprehensive public participation program was undertaken across the thirty-six municipal wards, and this was complimented by the sittings of the IDP/Budget Stakeholder Forum where interest groupings and sector departments were afforded an opportunity to input into the IDP and Budget development processes.

The planning on public participation still has to improve in the next financial year especially in the lights of serious resource constraints. The staffing in the Office of the Speaker is grossly inadequate. There is a need for additional vehicles in order to satisfactorily service all 36 wards, including improving the municipal ability to cater for policy consultations and the programs from the office of the Executive Mayor. Lastly, the general public was consulted on policy-making processes as required by the laws of the land.

T 2.4.0

2.4 PUBLIC MEETINGS

COMMUNICATION, PARTICIPATION AND FORUMS

The municipality regularly advertises Council meetings in the local newspapers in order for people to attend. The attendance to meetings by the public is not really satisfactory but there is no single meeting that has sat without members of the public present. The Offices of the Executive Mayor and the Speaker have each established forums in which service delivery issues are discussed.

The Executive Mayor heads the IDP Representative Forum, which consists of the ward committees, sector departments and the business. The Office of the Speaker chairs the Stakeholders' Forum, which consists of all public sector line departments within jurisdiction of the municipality.

The website of the municipality is functional even though it has some information challenges. Nevertheless, where possible, relevant information as required by the law is posted. The municipality also has notice boards at all its buildings which serve as important channels of communication. In this financial year, the municipality is also using the community radio station, *The Rock*, where the leadership of the municipality has unmediated communication with the community on development plans, progress and challenges. The municipality continues to publish *Matjhabeng News* on a monthly basis.

T 2.4.1

WARD COMMITTEES

The Municipality has 36 wards each with a well functioning Ward Committee. Ward Committees are correctly constituted, sit regularly as per the approved schedule and report timely on activities undertaken (see T2.4.3 below) . The office of The Speaker has attempted to performance-manages Ward Committees and assess their performance consistently.

T 2.4.3		

COMMENT ON THE EFFECTIVENESS OF THE PUBLIC MEETINGS HELD

As it has been already reported in one of the foregoing passages that a comprehensive public participation program was developed and executed during the year under review, its success and impact varied from issue to issue and from ward to ward. As it is the case with meetings of this nature, and despite the amount of energy, time and other resources mobilized for such meetings, it is unlikely that attendance and inputs would be uniform.

Nevertheless, apart from meeting a legal requirement in as far as consulting the public is concerned, meetings held yielded positive outcomes. The general public was able to input into programs where such was needed, and these contributed significantly to improving the Council decisions. For example, the IDP and Budget together with other policies approved have public ownership.

T 2.4.3.1

2.5 IDP PARTICIPATION AND ALIGNMENT

IDP Participation and Alignment Criteria*	Yes/No
Does the municipality have impact, outcome, input, output indicators?	Y
Does the IDP have priorities, objectives, KPIs, development strategies?	Y
Does the IDP have multi-year targets?	Y
Are the above aligned and can they calculate into a score?	Y
Does the budget align directly to the KPIs in the strategic plan?	Y
Do the IDP KPIs align to the section 57 Managers	Y
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Y
Were the indicators communicated to the public?	Y
Were the four quarter aligned reports submitted within stipulated time frames?	Y
NB: Whereas all of the responses above are correct, it is important to note that there has been an unevenness in the manner in which these (KPIs, outcomes, inputs, strategies, etc.) were captured in the IDP and SDBIP during the year under review	
T 2.5.1	

COMPONENT D: CORPORATE GOVERNANCE

2.6 RISK MANAGEMENT

RISK MANAGEMENT

Risk Management is a management process, through which the municipality identifies, evaluates and control significant risks that can result in failure, to attain strategic objectives. The main responsibility of Risk Management is to support the development of an overall Municipal Risk Management plan, aligned to Municipal Strategy. A reviewed risk management policy was approved during the Council sitting dated the 26th of September 2013. The following are the responsibilities of Risk Management.

1. Conducting Risk Assessment within the Municipality.
2. Advising and Guiding the Municipality in terms of Institutional Risk Matters.
3. Developing a Risk Management Strategy and Implementation Plan.
4. Coordinating Risk Management Activities.
5. Facilitating identification and assessment of risks.
6. Recommending Risk Responses to Management.

T 2.6.1

2.8 SUPPLY CHAIN MANAGEMENT

OVERVIEW SUPPLY CHAIN MANAGEMENT

The SCM policy of the municipality is aligned with the SCM regulations. The SCM policy was also reviewed to take into account the revised PPPF regulations. The primary goal of the Municipality's supply chain management system is to find reliable, cost effective suppliers for the Municipality, this means that acceptable norms and standards of quality, expected service delivery and technical performance will not be relaxed or compromised, while ensuring the promotion of HDI's in the process.

It is clear that the local economy is declining. For this purpose the Municipality has incorporated a number of local economic development initiatives and projects in the integrated development plan. The Municipality also realises that its supply chain management policy and practices can play an important role in stimulating local economic growth and development. This policy is therefore designed to contribute to the achievement by the Municipality of its objectives regarding local economic growth and development.

As stated earlier the technical capabilities and expertise of service providers are not compromised in the awarding of contracts, therefore projects are completed according to the required standards. This in turn contributes to effective service delivery. Challenges experienced to attain the standards set out in Section 112 of the MFMA are as follows:

The appointment of permanent SCM staff; the training strategy for SCM practitioners has not been developed

The remedial action taken is that the revised organogram will serve before Council and once this is approved by Council, appointment of permanent staff will follow.

2.10 WEBSITES

Municipal Website: Content and Currency of Material			
Documents published on the Municipality's / Entity's Website	Yes / No	Publishing Date	Reason
Current annual and adjustments budgets and all budget-related documents	Yes	September 2012	
All current budget-related policies	No		
The previous annual report (Year -1)	Yes	22-May-12	
The annual report (Year 0) published/to be published	Yes		
All current performance agreements required in terms of section 57(1)(b) of the Municipal Systems Act (Year 0) and resulting scorecards	Yes	August 2012	
All service delivery agreements (Year 0)	No	No	
All long-term borrowing contracts (Year 0)	No	No	
All supply chain management contracts above a prescribed value (give value) for Year 0	No	No	
An information statement containing a list of assets over a prescribed value that have been disposed of in terms of section 14 (2) or (4) during Year 1	No	No	
Contracts agreed in Year 0 to which subsection (1) of section 33 apply, subject to subsection (3) of that section	No	No	
Public-private partnership agreements referred to in section 120 made in Year 0	No	No	
All quarterly reports tabled in the council in terms of section 52 (d) during Year 0	No	No	
<p>NB: Where the response is in the negative regarding the website above, a distinction must be made between whether or not the municipality did indeed do what it was supposed to do as opposed to not having put such information in the website as required by law.</p> <p>For example, in respect of "All current budget-related policies"; "All service delivery agreements", the municipality did develop and Council approved budget-related policies and all service delivery agreements were entered into and correctly signed by parties involved, but what lacked was the posting of such in the website as required by law.</p> <p>The primary reasons for this non-compliance were (i) the dysfunctionality of the municipal website at the time and (ii) the delay by the Free State Provincial Government to have such information posted on the website as update of municipal websites has become centralized in the Province</p>			T 2.10.1

COMMENT MUNICIPAL WEBSITE CONTENT AND ACCESS:

Matjhabeng Local Municipality's Website is currently receiving support from the office of the Premier, regarding the development and maintenance or updating of the website. The support is at its infancy stage and plans are afoot to make it more accessible and user friendly as possible. There's reasonable information on the website as required by the law and the hit rate is promising as well.

T 2.10.1.

CHAPTER 3 – SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

COMPONENT A: BASIC SERVICES

This component includes: water; waste water (sanitation); electricity; waste management; and housing services; and a summary of free basic services.

INTRODUCTION TO BASIC SERVICES

According to Stats SA's Census 2011, Matjhabeng Local Municipality has an overall population size of 406 461 with 123 195 households (with 97.7% being found in urban areas, and 2.3% living on farms). Of these, 78.5% constitutes formal dwellings, whereas 81.1% is connected to waterborne sanitation, 54.8% are households with piped water inside dwellings. The municipality provides refuse removal services weekly to 86.3% of the total households. The percentage of households that uses electricity is 91.1.

During the year under review, the Municipality had approximately 8500 informal dwellings.

T 3.1.0

3.1. WATER PROVISION

INTRODUCTION TO WATER PROVISION

Matjhabeng Municipality is the Water Service Authority and Sedibeng Water the Water Service Provider. Due to the down scaling of the mines in the area, the current bulk water supply capacity is more than adequate in all the towns in the area of authority. Due to aging of some of the water networks and challenges to manage and meter all households the water loss is unacceptably high.

The Municipality achieved a Blue Drop Status in 5 of the 6 towns.

The Municipality renders basic assistance to poor communities within its resource constraints.

T 3.1.1

Total Use of Water by Sector (cubic meters)

	Agriculture	Forestry	Industrial	Domestic	Unaccountable water losses
Year -1	50	40	35	150	10
Year 0	50	44	46	9	11

T 3.1.2

Water: (above min level)

T 3.1.2.1

COMMENT ON WATER USE BY SECTOR:

Due to excessive water losses, the Municipality embarked on project to reduce water losses. A service provider was appointed, but to date no real benefits were achieved.

Maintenance of water networks in old high income areas becomes difficult as little funding is available to maintain and upgrade such. All governmental actions are focussed on PDI areas.

T 3.1.2.2

Water Service Delivery Levels

					T 3.1.9

COMMENT ON WATER SERVICES PERFORMANCE OVERALL:

The proposed water projects as listed in the IDP should mostly be completed within the set timeframe. The replacement of asbestos water lines as well as water demand projects will not be completed.

Projects according to IDP are:-

Thabong X20 (Hani Park)	R1,3m	2016
Thabong T6 & T12	R8,4m	2014
Servicing of 500 stands with water connections in Kutlwanong	R1m	2016
Analyse and upgrade Meloding water network	R30m	2016

The servicing of Thabong T12 already started.

Some portions of Meloding water network were upgraded, making a big difference on the quality of the service.

T 3.1.10

3.2 WASTE WATER (SANITATION) PROVISION

INTRODUCTION TO SANITATION PROVISION

Due to environmental requirements associated with sewerage, the Municipality spend a major portion of its budget on upgrading these services. However, several challenges still exist. The upgrading of the Waste Water Treatment Works (WWTW) especially gets high priority. Some radical improvements can be seen in the Green Drop scoring, which more than doubled since the previous assessment.

3.4 WASTE MANAGEMENT (THIS SECTION TO INCLUDE: REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND RECYCLING)

INTRODUCTION TO WASTE MANAGEMENT

Matjhabeng Municipality is poised to adhere to the legislative mandate which address the Waste Minimization Strategy and in particular the Polokwane Declaration that sets the ambitious target of a reduction of waste disposal by landfill, refuse removal and recycling as part of Green Economy as resolved at COP17 Climate Change Conference held in Durban. The Waste Management service is carried out in compliance to the National Waste Management Strategy, National Environmental Management Act (Act 107 of 1998), National Environmental Management Waste Act (Act 59 of 2008) and National Health Act (Act 61 of 2003)

COMMENT ON WASTE MANAGEMENT SERVICE PERFORMANCE OVERALL

The Directorate provides Waste Management Services to 5 264 service points of which constitute 107 000 households. The service provision to households is once a week collected from kerb stone, the industries are serviced twice a week and commercial is serviced three times a week. Other services include street cleaning, paper picking and rubble removal. The cleaning services are carried out on a daily basis whilst the rubble removal is carried out as per request.

T 3.4.10

3.5 HOUSING

INTRODUCTION TO HOUSING

The core function of the department is to ensure the provision of sustainable and integrated Human Settlements through effective and efficient administration, management as well as control of the use of land. The department currently consists of under mentioned branches:

- Spatial Planning (Operationally reports to LED)
- Housing Administration
- Land Affairs
- Housing Development
- Rental Unit

The Department's overall performance during the period under review was faced with various financial and technical limitations. Functionally, there has been too much dependence on Provincial Human Settlements with regard to allocation of Breaking New Ground (BNG) subsidies.

Amid these limitations, the following were achieved: completion of 258 houses under the previous program of "incomplete projects". We further facilitated the completion of 272 housing units under Special Intervention projects (Hlasela). Furthermore we successfully partnered with both the PHS and Harmony (tripartite agreement) and delivered 461 rental units. Through our constant program of promotion of security of land tenure, 1500 transfers were successfully registered.

3.6 FREE BASIC SERVICES AND INDIGENT SUPPORT

INTRODUCTION TO FREE BASIC SERVICES AND INDIGENT SUPPORT

Section 96 of the Local Government Municipal Systems Act states that a municipality must adopt a Credit Control and Debt Collection Policy, the act further states in Section 97 that a municipality must also adopt an Indigent Policy. The municipality has adopted both policies. The tables overleaf gives an indication of the number of households receiving free basic services.

T 3.6.4

COMMENT ON FREE BASIC SERVICES AND INDIGENT SUPPORT

The municipality provided free basic services to 25 186 indigents.

T 3.6.6

COMPONENT B: ROAD TRANSPORT

This component includes: roads; transport; and waste water (stormwater drainage).

INTRODUCTION TO ROAD TRANSPORT

Due to high construction costs of roads the Municipal policy is to construct roads according to the road hierarchy unless there are serious storm water challenges. The idea is to get a person on a formal road as near as possible to his house.

T 3.7

3.7 ROADS

INTRODUCTION TO ROADS

More than 50km of roads, to an amount of R143m, was constructed during the last few years. A tender of R60m was approved for road maintenance over the next 3 years. This does not include patching, which is done with internal personnel and operational budget funding. A large backlog however still exists on the maintenance of road infrastructure. Due to backlogs on sewerage and WWTW the Municipality may have to downscale on the provision of roads.

					T 3.7.9

COMMENT ON THE PERFORMANCE OF ROADS OVERALL:

With the available resources and taking cognisance of the urgency of other critical services, the performance on the roads was above expectations.

T 3.7.10

3.8 TRANSPORT (INCLUDING VEHICLE LICENSING & PUBLIC BUS OPERATION)

INTRODUCTION TO TRANSPORT

No public bus transport system exists in Matjhabeng Municipality. The Municipality is however committed to ensure that high standards of taxi rank facilities are created in each township. A lot of focus and funding are allocated to realise this target in the next 4 years.

T 3.8.1

					T3.8.4

COMMENT ON THE PERFORMANCE OF TRANSPORT OVERALL

Notwithstanding the fact that as a Municipality we have not systematically performed this responsibility. We however will pay particular attention on this function during the review of the IDP 2014/2015 financial year. In this regard we will ensure that within the department of Infrastructure services a division will be established for Transport planning operations and management.

Nevertheless, the municipality was able to establish a number of taxi ranks during the year under review. Taxi's are an important element of the public transport system and are used by the majority of the citizens of Matjhabeng Local Municipality.

T 3.8.7

3.9 WASTE WATER (STORMWATER DRAINAGE)

INTRODUCTION TO STORMWATER DRAINAGE

Due to the low gradients of the Matjhabeng Municipal area, stormwater is a challenging and expensive service. During the development of some towns, especially the townships, little emphasis was given to create major stormwater systems. When roads are designed the drainage thereof becomes problematic. It must also be mentioned that due to this low gradients of the area, the stormwater systems are designed at minimum velocity. This results in channels silting up regularly with the accompanying flooding problems and regular maintenance actions.

COMMENT ON THE PERFORMANCE OF STORMWATER DRAINAGE OVERALL:

Some storm water challenges were addressed in three townships with a view to making a difference in their living conditions. Maintenance of storm water, is however lacking and need more attention.

T3.9.9

COMPONENT C: PLANNING AND DEVELOPMENT

INTRODUCTION TO PLANNING AND DEVELOPMENT

Spatial Planning deals with the methods used by the public sector to influence the distribution of people and activities in spaces of various scales. Discrete professional discipline which involves spatial planning, land use, urban, regional, transport and environmental planning. Other related areas of importance, include economic and community planning. Spatial planning takes place on local, regional, national and inter-national levels and results in the creation of a spatial plan.

Spatial planning gives geographical expression to the economic, social, cultural and ecological policies of society. It is at the same time a scientific discipline, an administrative technique and a policy instrument developed as an interdisciplinary and comprehensive approach directed towards a balanced regional development and the physical organization of space according to an overall strategy.

Spatial planning enables "making decisions relating to the location and distribution of land use activities".

Development Control is about making decisions relating to the way in which different activities, land uses and buildings are located relation to each other, in terms of distance between them, proximity to each other and the way in which spatial considerations influence and are influenced by economic, social, political, infrastructural and environmental considerations".

Development Planning is about making decisions relating to the way in which different activities will be positioned in space associated with future urban growth and expansion and will be influenced by current and future economic social, political, infrastructural and environmental considerations.

COMMENT ON THE PERFORMANCE OF PHYSICAL PLANNING OVERALL

Due to the limited funding from within the Municipality most of the planned projects could not be implemented during the year under review. Consequently, these projects had to be deferred to 13/14 Financial Year. It is important to note that funding has since been sourced from the provincial government. As part of the plan for the year under review, it was envisaged that consolidated town planning scheme for Matjhabeng was going to be approved by COGTA.

T3.10.7

3.10 LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES)

INTRODUCTION TO ECONOMIC DEVELOPMENT

The following aspects constitute the scope and mandate of the LED- Tourism, SMME support and development, Agriculture support and promotion, Development Planning and Control, Investment Promotion, Attraction and Retention, etc. During the period under review our focus was more on the development of the essential plans as well as policy instruments to enable the Department to systematically execute its obligations.

Accordingly, the implementations plans were developed by all the Divisions of the Department as encapsulated in the Service Delivery and Budget Implementation Plan(SDBIP). Noteworthy, is the fact that these some of the targets were reliant on the funding from the Municipality for their implementation whilst other were funded and were suppose to be funded by the other spheres of government. Safe to say that some targets were funded by other spheres timely whereas others were funded later in the year, this reality adversely impacted the implementation and realization of the said targets on time.

Some of these targets were dependent on the internal funding that was not enough to cater for the planned programs of the municipality as expected. It is in this regard that the Department has deem it necessary to optimize measures of creating the conducive environment for SMME as the key measure in contributing for the strengthening of the local economy, this is done through the coloration with the relevant stakeholders that share the similar responsibility with us as well as improving on the support measures provided to this sector of our economy.

In our SDBIP as an example we planned to develop/review LED as well as the City Development strategies and the Spatial Development Framework but as a consequence of limited funding these could not be done as a result these targets had to be deferred to the subsequent Financial year. As a result of collaboration these plans will be done with funding from other spheres of government.

COMMENT ON LOCAL ECONOMIC DEVELOPMENT PERFORMANCE OVERALL:

Despite the fact that the LED Strategy was not approved by Council and still remains a draft that is going through the review process, it is worth noting that certain programmes were executed in promoting economic development and tourism. To this extent, it is worth mentioning that through the collaboration with other sector departments such as Agriculture, land and funding was provided to some community groups that were later formalised as co-operatives.

The support measures are being intensified to optimise the productivity of the co-operatives as well as the SMME's. In this regard, the profiling of all co-operators is currently underway to determine and quantify capacity requirements, once completed respective capacity plans will be developed and executed for each co-operators.

Through the support received from SEDA some SMME's have been trained during the year under review and this programme is ongoing. Regarding tourism, specific programmes for improving customer satisfaction have been instituted through the tourism excellence awards that has demonstrated improvement from strength to strength.

For the success of the programmes that were planned by the department it was viewed essential to consolidate partnership with other institutions as a result agreements will be concluded with some institutions to structure relations with them.

The improved collaboration between the Municipality and other spheres of Government, as well as the private sector, has brought about good results that have been demonstrated by activities and programmes that have been jointly executed and is worth mentioning though that these efforts should be strengthened to optimise the beneficiary through creation of job opportunities and economic growth. Important would be to pay much attention in attracting investment to the region as well as focusing on the retention of the investment already within our jurisdiction.

T 3.11.11

COMPONENT D: COMMUNITY & SOCIAL SERVICES

This component includes: libraries and archives; museums arts and galleries; community halls; cemeteries and crematoria; child care; aged care; social programmes, theatres.

INTRODUCTION TO COMMUNITY AND SOCIAL SERVICES

Important would be to pay much attention in attracting investment to the region as well as focusing on the retention of the investment already within our jurisdiction.

T 3.12

3.12 LIBRARIES

INTRODUCTION TO LIBRARIES:

In terms of the Constitution of the Republic of South Africa, 1996, Library Services is a provincial function. Matjhabeng Local Municipality is performing this unfunded mandate to provide information to the community. There are fifteen (15) in our area. The main library is the Welkom Library. The Provincial Government is fully funding and operating the Riebeeckstad Library. Some of our Libraries are offering free computer services (internet) to library users

T 3.12.1

SERVICE STATISTICS FOR LIBRARIES:

The fifteen (15) libraries we have in Matjhabeng has ± 648 570 members. Welkom, Thabong 1 and Meloding libraries have the highest membership. All fifteen (15) libraries offers yearly programmes, spell check, toy library, puzzles, kids drawing, tell your own story and world book day.

COMMENT ON THE PERFORMANCE OF LIBRARIES

The fifteen (15) libraries in and around Matjhabeng performed fairly well in the year under review. Although libraries are required to open for only five days of the week, Welkom, Thabong 1, Meloding, Virginia, Odendaalsrus, to mention a few, have extended the service to Saturday. It is important to mention that we have challenges of users damaging and not returning some borrowed books

T 3.12.7

3.13 CEMETERIES AND CREMATORIUMS

INTRODUCTION TO CEMETERIES AND CREMATORIUMS:

Cemeteries are an exclusive function of local government as per Schedule 5B of the Constitution of the Republic of South Africa, 1996. Matjhabeng Municipality is responsible for providing adequate graves to the community for burial purposes. Cemetery services are subsidized by municipalities, as revenue generated from this sector is significantly low compared to the total budget allocated

There is increased demand for burial land due to excessive increase of the population. This is mostly affected by diseases like TB, HIV/AIDS, rapid urbanization in towns and cities. Cemeteries are not just a place for burial purposes, but they are places for spiritual and cultural references, and in some are for connecting with the ancestral spirits through ancestral worship.

The Municipality constantly tries to balance meeting the social, economic, cultural and religious needs of the community. It is often difficult to find suitable land for burial as opposed to land for other priorities such as housing, schools, recreational facilities and others, hence municipality have challenges facing allocation of land for burials.

T 3.13.1

SERVICE STATISTICS FOR CEMETERIES AND CREMATORIUMS:

Annual burial for Matjhabeng Local Municipality is 3945.

COMPONENT G: SECURITY AND SAFETY

This component includes: police; fire; disaster management, licensing and control of animals, and control of public nuisances, etc.

INTRODUCTION TO SECURITY & SAFETY

PUBLIC SAFETY & TRANSPORT

Objective of the Public Safety Department

The main objective of the Public Safety is to provide administration leadership and strategic guidance and ensuring a safe environment within the municipality in fulfilling its mandate.

Our Approach to Improve Public Safety

The Department of Public Safety will endeavour to:

- Share Information
- Guide and support each other.
- Draft policies, standard operating procedures and standing orders
- Render a reliable, customer focused service
- Apply the "Batho Pele" Principles
- Respect each other, person's views and suggestions
- Clarify roles and responsibilities
- Communicate with each other
- Make ourselves available for service at all times
- Abide by all legislative requirements and promote the government's mandate
- Implement capacity building programmes

INTRODUCTION TO SECURITY OVERVIEW

SECURITY SERVICES

Security Services is entrusted with a responsibility of safe guarding valuable Council's assets and resources.

FUNCTIONS OF SECURITY SERVICES

FUNCTION OF SECURITY:

- Safeguarding of Council property.
- Enforcing of by-laws.
- Protection of VIP's.
- Protection of personnel and clients.
- Investigations.
- Vetting of personnel and companies.
- Crowd control.

INTRODUCTION TO TRAFFIC MANAGEMENT OVERVIEW

The Traffic Division is responsible for traffic law enforcement and the administration thereof. The function also ensures the technical sustainability of road traffic signs, signals and markings throughout the Municipal Area.

The Function of Traffic Policing

- To enforce traffic law
- To conduct public information and awareness programs
- Enforce compliance to road traffic signs, rules and regulations
- To ensure a sustainable and successful maintenance strategy of road signs, signals and markings
- To maintain committed goals through direct enforcement and Traffic Control
- Responsible for all administration duties such as receiving of traffic fines, capturing of data; e.g. Traffic collisions, issuing of summonses and Court rolls as well as general office work.
- The Technical Division is responsible for road marking, erecting of road signs and the sustaining thereof.
- Road Safety Education develops knowledge, skills, attitude and values that enable pedestrians, cyclists, motorists, drivers and passengers to use the road safely.
- Traffic training.

THE KEY ISSUES FOR 2012/2013 ARE:

It needs to be mentioned that the efficiency of the Department is still be hampered by constraints such as staff vacancies, the lack of equipment and the lack of operational as well as capital funding.

The filling of critical vacancies cannot be done due to the financial constraints experienced by Council. A limited capital budget has prevented the implementation of some crucial projects and the procurement of much needed equipment.

3.21 FIRE

INTRODUCTION TO FIRE SERVICES

OVERVIEW

Matjhabeng Fire and Rescue Services is responsible for two primary functions to our citizens, namely. which is emergency response to a myriad of calls needing rescue and fire extinguishing services

The functions of Emergency Services of the municipality are administered as follows and include:

OPERATIONAL

- Residential Fires
- Institutional fires
- Public assembly fires
- Commercial fires
- Industry fires
- Utility fires
- Transport fires
- Other fires
- Vehicle fires
- Vehicle accidents
- Hazardous substances incidents
- Miscellaneous assistance to people

Fire safety activities

- Fire prevention inspections.
- Building plans inspected.
- Hazardous substances installation inspections.
- Fire hydrant inspections

Employees: Fire Services

Public Education and Awareness Programs

- Presenting of fire awareness session / programs to school groups and community members.
- Presenting fire training sessions to the community businesses and Municipal staff

During 2012/2013 the Fire and Rescue Service biggest difficulty experienced, was the old fire engine fleet.

Challenges

Operational - There were problems with regards to fire calls attended because we did not comply to the SANS code of conduct because of the shortage of fire engines.

Fire Safety - There was no impact, everything was achievable.

3.22 OTHER (DISASTER MANAGEMENT, ANIMAL LICENCING AND CONTROL, CONTROL OF PUBLIC NUISANCES AND OTHER)

INTRODUCTION TO DISASTER MANAGEMENT:

The Municipality is attending to many incidents caused by natural causes, including veld fires. In all disaster management and some public nuisance issues, Matjhabeng Local Municipality work hand in hand with Lejweleputswa District Municipality to provide relief to affected communities. During the year under review, Disaster management was not included in the IDP and corrective steps has since been taken.

T 3.22.1

SERVICE STATISTICS FOR DISASTER MANAGEMENT:

Disaster Management provided temporary shelters to the communities that was affected by thunderstorms. Fifty (50) salvage sheets were used to assist the affected houses. More than two thousand section 56 (illegal dumping) fines were issued out, though we have challenges of the court dismissing our cases.

COMPONENT H: PARKS, SPORT AND RECREATION

INTRODUCTION TO PARKS, SPORTS & RECREATION

Matjhabeng Local Municipality's philosophy of sports and recreation is based on the recognition of the vital importance of sports in the holistic development of the individual and the community. Sports and Recreation are an important means of building and developing the character of the individual as well as the social cohesion of the community. It builds the spirit of friendly competition, provides healthy entertainment, it exercises the body, it creates a climate of achievement and challenges the youth in particular to higher levels of endurance and attainment.

It is the responsibility of the Municipality to ensure that sport and recreation facilities are accessible to all through an application of the management and maintenance of sport and recreation policy. According to The National Sport and Recreation Act (Act 110 of 1998) provides for promotion and development of sports and recreation and coordination of the relationships between the Sports Commission, National and recreation federations and the others.

The White Paper on Sport and Recreation gives effect to stated government policy of a better life for all and to get the nation to play, hence the Municipality creates infrastructure for delivery of sport and recreation and ensures the existence of programmes that develop the human resources potential in sport and recreation

T 3.23

3.23 PARKS, SPORTS AND RECREATION INCLUDING CEMETORIES

SERVICE STATISTICS FOR PARKS, SPORTS & RECREATION

Matjhabeng Local Municipality has a total number of nine hundred and seventy (970) development and undeveloped parks, and thirty two (32) recreational facilities. Meloding and Mmamahabane stadiums were refurbished (phase one (1)). Several parks were also refurbished though we experienced financial constraints.

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

This component includes: corporate policy offices, financial services, human resource services, ICT services, property services.

3.24 EXECUTIVE AND COUNCIL

This component includes: Executive office (mayor; councilors; and municipal manager).

INTRODUCTION TO EXECUTIVE AND COUNCIL

Introduction to Executive and Council

Council

Matjhabeng Local Council is a category “B” municipality with a mayoral executive system combined with a ward participatory system. It comprises of 72 councilors, 36 directly elected from the Wards and another 36 elected by political parties on proportional basis in the following order:

Political Party	Total	PR	Ward
African National Congress (ANC)	52	22	30
Democratic Alliance (DA)	16	10	6
Congress of the People (COPE)	3	3	0
Freedom Front Plus (FF+)	1	1	0

The Council is the legislative authority of the municipality and also plays an oversight role over the Executive and Administration.

Speaker

The Council Chairperson is the Speaker. This office is also responsible for public participation. The Speaker is the Chairperson of the Council: the Chief Custodian and Guardian of the legislative arm of government.

The Speaker plays two main important roles:

- Within the Council; and
- In building democracy

The Speaker presides over the Council meetings and ensures that the meetings are convened at least once a quarter. He maintains order during the meetings and ensures that meetings are held in accordance with the standing rules and orders. The Speaker is also responsible for assessing the needs of Councillors, arranging suitable training to develop political governance capacity that will enable Councillors to carry out their oversight tasks effectively.

The Speaker does therefore facilitate the improvement of individual Councillor's skills. The Speaker manages community participation in the Municipality through ward committees. He is responsible for functionality of ward committees. He assesses the capacity of ward committees and identifies appropriate training interventions in order to build the capacity of these structures.

The Speaker is also responsible for establishment of other forums that co-ordinate the concerted effort of bringing services closer to the people.

Executive Mayor / Mayoral Committee

The Executive Mayor and the Mayoral Committee play an executive role in the municipality. The Mayoral Committee comprises of the ten (10) members heading the following portfolios committees:

- Policy and Monitoring
- Community Services
- Local Economic Development
- Finance
- Technical Services
- Corporate Support Services
- Social Services
- Public Safety & Transport
- Human Settlements and
- Special Programmes

Council Whip

Matjhabeng Municipality has a Council Whip, whose role is to enhance multiparty democracy by co-ordinating multiparty for a party liaison.

Administration

Municipal administration is the machinery for service delivery to the community. The administrative component of the municipality is headed by the Municipal Manager and comprises of various Directorates and Departments headed by Executive Directors and Heads of Departments. Matjhabeng has six (6) Directorates namely Financial Services, Strategic Support Services, Corporate Support Services, Local Economic Development, Community Services and Technical Services.

COMMENT ON THE PERFORMANCE OF ICT SERVICES OVERALL:

The IDP shows that one of the ICT objectives is to upgrade and maintain ICT infrastructure. The project addressing this objective involves liaising with SITA on implementation of Government wide webpage development. In the meantime the provincial department came on board to assist the municipality in maintaining its website but the process has not been fully successful additional efforts between the municipality and the Office of the Premier are been implemented to rectify the challenges.

1. On the infrastructure side the municipality has succeeded in upgrading the personal computers of about 59 users and this has been in accordance with the budget
2. 5 x Ingenico's (Pre-paid electricity machines) were procured in Aug 2013
3. 36 Laptops were also procured for different users
4. ICT managed to upgrade 6 sites network for better network performance

There are still no new servers purchased and the Municipality is at risk of losing all the data or information should the current old servers fail or die.

COMMENT ON VACANCIES AND TURNOVER

The Matjhabeng Local Municipality's staff turnover is as the result of people reaching retirement age and death. During the year under review Matjhabeng Local Municipality has not experienced the departure of a Section 57 Manager.

In the year under review Matjhabeng Local Municipality experienced the staff turnover of 6% . This is considered low because the universally accepted norm is 15%. The Matjhabeng Local Municipality's staff turnover is as the result of people reaching the retirement age and others is the death. During the year under review Matjhabeng Local Municipality has not experienced the departure of a Section 57 Manager

T 4.1.4

COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE

INTRODUCTION TO MUNICIPAL WORKFORCE MANAGEMENT

The Matjhabeng Municipality's vacancy rate is at 51% of its total staff establishment. Despite the economic challenges, the Municipality has managed to provide at least minimum services to the community. This has been possible due to mobility of staff which as a need arises, is taken to work where the demand for services is required.

Overtime Policy

Despite the challenges of keeping within the prescripts of Basic Conditions of Employment Act, 1997, the municipality has implemented the measures to control overtime by using the earning threshold as determined by the Minister of Labour. No overtime, unless it is an emergency, is worked without prior application and approval by the Head of Department

Employee Assistance Program

The Matjhabeng Local Municipality has programs that assist employees on:

Stress Management

Alcohol and substance abuse

Work related issues such as absenteeism

Psycho-social problems
HIV/AIDS support and counseling
Financial life-skills

Skills Development

Matjhabeng Local Municipality provides employees with the opportunity to further their formal studies through study assistant program

Labour Relations

The Labour Relations component is utilized to keep harmonious relationships between the employer and the employees. Issues that affect employees and employer are discussed at the Local Labour Forum. Representation at this forum is in terms of Collective Agreement.

Occupational Health and Safety

During the year under review, 300 employees who work at high risk areas such as sewerage plants were taken for annual Hepatitis health checkup.

Furthermore the Municipality complies with legislation in terms of:

Legal appointment of Municipal Manager in terms of 16.1 of the Occupation Health and Safety Act, including Managers reporting directly to the Municipal Manager in terms of 16.2 of the Act, have been done.

Appointment of Safety Representations.

Employment Equity

The Employment Equity Report was compiled and approved by Council in 2011/12 financial year. Progress reports are submitted to the Department of labour annually.

Average Number of Days Sick Leave (excluding IOD)

T 4.3.3

COMMENT ON INJURY AND SICK LEAVE

Matjhabeng LM employees who are injured on duty receive special leave and such leave is not deducted from their sick leave credit.

Serious injuries are referred to the Regional Hospital and private hospitals that accept compensation cases and the required process is followed in terms of follow up visits.

For prolonged absence from duty as the result of injury on duty, the municipality closely monitors the absence and the employee's pension /provident fund is informed that the employee has sustained a serious injury.

T 4.3.4

T 4.6.5

DISCLOSURES OF FINANCIAL INTERESTS

All Councillors, Section 57 appointees and officials are disclosing financial interest in the following manner:-

Councilors who have a financial interest complete the Disclosure of Financial Interest forms and in a council meeting in accordance with a standing item in the business of every Ordinary Council meeting for disclosure of financial interest by all Councillors.

Section 57 appointees disclose their financial interest annually with in line with the annual review of their service level agreements.

Other officials also complete Financial Interest Disclosure forms as when the need arises.

T 4.6.6

CHAPTER 5 – FINANCIAL PERFORMANCE

INTRODUCTION

Chapter 5 will provide information of the financial performance of the municipality for the year under review. The chapter will include the audited financial statements, a reconciliation of the A1 budget summary, grant performance and asset management. The performance on repair and maintenance will also be indicated in the chapter.

T 5.0.1

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

INTRODUCTION TO FINANCIAL STATEMENTS

Section 122 of the Municipal Finance Management Act 56 of 2003 states that every municipality must prepare annual financial statements for each financial year. The annual financial statements for the 2012/2013 financial year was prepared in compliance with section 122 of the Municipal Finance Management Act as well as GRAP. During the year under review the municipality requested for an extension on submission and were submitted on 30 September 2013.

COMMENT ON ASSET MANAGEMENT

The Asset Register has been compiled however there are still gaps in it. We are currently in the process of resolving and addressing the gaps identified by the Auditor General.

T 5.3.3

Repair and Maintenance Expenditure: Year 0

R' 000

	Original Budget	Adjustment Budget	Actual	Budget variance
Repairs and Maintenance Expenditure	161,889	0	39,394	76%
T 5.3.4				

COMMENT ON REPAIR AND MAINTENANCE EXPENDITURE

The budget for repair and maintenance for the year under review was R 161 889 070 and the actual expenditure for the year under review was at R 39 394 974 which is resulted into a variance of 76%. The reason for the under-spending was as a result of the cash flow constraints experienced during the year under review

T 5.3.4.1

5.4 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS

Liquidity Ratio

Liquidity Ratio – Measures the municipality's ability to pay its bills and is calculated by dividing the monetary assets (due within one year) by the municipality's current liabilities. A higher ratio is better.

Data used from MBRR SA8

T 5.4.1

Cost Coverage

Cost Coverage– It explains how many months expenditure can be covered by the cash and other liquid assets available to the Municipality excluding utilisation of grants and is calculated

Data used from MBRR SA8

T 5.4.2

Total Outstanding Service Debtors

Total Outstanding Service Debtors – Measures how much money is still owed by the community for water, electricity, waste removal and sanitation compared to how much money has been paid for these services. It is calculated by dividing the total outstanding debtors by the total annual revenue. A lower score is better.

Data used from MBRR SA8

T 5.4.3

Debt Coverage

Debt Coverage– The number of times debt payments can be accommodated within Operating revenue (excluding grants) . This in turn represents the ease with which debt payments can be accommodated by the municipality

Data used from MBRR SA8

T 5.4.4

Creditors System Efficiency

Creditor System Efficiency – The proportion of creditors paid within terms (i.e. 30 days). This ratio is calculated by outstanding trade creditors divided by credit purchases

Data used from MBRR SA8

T 5.4.5

Capital Charges to Operating Expenditure

Capital Charges to Operating Expenditure ratio is calculated by dividing the sum of capital interest and principle paid by the total operating expenditure.

Data used from MBRR SA8

T 5.4.6

Employee Costs

Employee cost – Measures what portion of the revenue was spent on paying employee costs. It is calculated by dividing the total employee cost by the difference between total revenue and capital revenue.

Data used from MBRR SA8

T 5.4.7

Repairs & Maintenance

Repairs and Maintenance – This represents the proportion of operating expenditure spent and is calculated by dividing the total repairs and maintenance.

Data used from MBRR SA8

T 5.4.8

CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

COMPONENT A: AUDITOR-GENERAL OPINION OF FINANCIAL STATEMENTS YEAR -1

6.1 AUDITOR GENERAL REPORTS YEAR -1 (PREVIOUS YEAR)

REPORT OF THE AUDITOR-GENERAL TO THE FREE STATE PROVINCIAL LEGISLATURE AND THE COUNCIL ON THE MATJHABENG LOCAL MUNICIPALITY

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I was engaged to audit the financial statements of the Matjhabeng Local Municipality set out on pages xx to xx, which comprise the statement of financial position as at 30 June 2012, the statements of financial performance, changes in net assets and cash flows for the year then ended, and the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and in the manner required by the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2011 (Act No. 6 of 2011) (DoRA) and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. My responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), the *General Notice* issued in terms thereof and International Standards on Auditing. Because of the matters described in the basis for disclaimer of opinion paragraphs, however, I was unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

Property, plant and equipment

4. I was unable to obtain sufficient appropriate audit evidence for property, plant and equipment of R4 456 966 678 (2011: R4 586 902 161), as disclosed in note 8 to the financial statements, to substantiate the values recorded in the asset register. I have not determined the correct net carrying amount of property, plant and equipment or the accuracy of depreciation as it was impracticable to do so due to inadequate descriptions and locations recorded in the asset register to facilitate physical verification of the condition and existence of the assets. In addition, the asset register includes assets without values. I was unable to confirm by alternative means whether the municipality accurately had valued all its assets and conducted impairment assessment for all municipal assets at each reporting date in accordance with SA Standards of GRAP, GRAP 17, *Property, plant and equipment* and GRAP 21, *Impairment of non-cash-generating assets* and GRAP 26, *Impairment of cash-generated assets*. Consequently, I was unable to determine whether any adjustments were necessary to the amounts disclosed for property, plant and equipment.

Investment property

5. I was unable to obtain sufficient appropriate audit evidence for property, plant and equipment of R283 160 912 (2011: R314 042 068), as disclosed in note 50 to the financial statements, to substantiate the values recorded in the asset register. I have not determined

the correct net carrying amount of investment property or the accuracy of depreciation as it was impracticable to do so due to inadequate descriptions and locations recorded in the asset register to facilitate physical verification of the condition and existence of the assets. In addition, the asset register includes assets without values. I was unable to confirm by alternative means whether the municipality had accurately valued all its assets and conducted impairment assessment for all municipal assets at each reporting date in accordance with SA Standards of GRAP, GRAP 16, *Investment property* and GRAP 26, *Impairment of cash-generated assets*. Consequently, I was unable to determine whether any adjustments were necessary to the amounts disclosed for investment property.

Consumer debtors

6. I was unable to obtain sufficient appropriate audit evidence of consumer debtors with a balance of R1 493 489 369 (2011: R1 142 535 294), as disclosed in note 6 to the financial statements, due to consumers being billed using incorrect tariffs, accounts with credit balances totalling R21 128 890 and the lack of approval for debt written off. I was unable to confirm the balance for the consumer debtors by alternative means. In addition certain consumer accounts were not impaired in terms of International Accounting Standard, IAS 39, *Financial instruments: Recognition and measurement*. Consequently, I was unable to determine whether any adjustments were necessary to the amounts disclosed for consumer debtors.

Non-current consumer debtors

7. I was unable to obtain sufficient appropriate audit evidence for non-current consumer debtors with a balance of R23 057 044 (2011: R19 879 217), as disclosed in note 9 to the financial statements, due to the municipality being unable to provide signed service contracts with renegotiated payments terms. In the absence of payments after year-end, I was unable to confirm the existence, completeness and valuation of and the municipality's rights to non-current debtors and whether any adjustments were necessary to the amounts disclosed for non-current consumer debtors.

Inventory

8. The municipality did not record all inventories that met the recognition criteria set out in the SA Standards of GRAP, GRAP 12 *Inventory*. The municipality also did not perform an inventory count at year-end to verify the existence of inventory. I have not determined the correct amount of inventory as it was impracticable due to lack of inventory records.

Trade and other payables

9. The municipality did not have adequate systems in place to update and reconcile leave records, which resulted in the accrued leave pay as disclosed in note 14 and accumulated surplus being understated by R19 141 020, respectively. In addition, I was unable to obtain sufficient appropriate audit evidence for payables amounting to R48 900 163, representing retention monies and accruals, as disclosed in note 14 to the financial statements, due to contracts indicating the agreed-upon retention monies and a detailed breakdown of accruals not being provided for audit purposes. I was unable to confirm the accrued leave pay and accruals by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to the amount disclosed for payables.

Provisions

10. I was unable to obtain sufficient appropriate audit evidence for provisions amounting to R86 063 718 (R58 483 608), as disclosed in note 18 to the financial statements, in respect of rehabilitation of landfill sites due to lack of evidence to support assumptions used in the calculation this provision; consequently, I was unable to confirm the completeness and valuation of provision for landfill sites by alternative means. I was unable to determine whether any adjustments were necessary to the amount disclosed for the provision.

Leases

11. SA Standards of GRAP, GRAP 13, *Leases* defines the criteria for the classification of leases as either a finance lease or an operating lease. I was unable to obtain sufficient appropriate audit evidence about leased assets of R7 073 268 (2011: R11 845 900), as disclosed in note 13 to the financial statements, and operating expenses of R38 367 078 disclosed in note 34, due to contracts entered into with the lessors not provided. I was unable to confirm the correct treatment of the leases in terms of GRAP 13 by alternative means. Consequently, I was unable to determine whether any further adjustments were necessary to the amount disclosed for leases.

Expenditure

12. I was unable to obtain sufficient appropriate audit evidence for general expenditure of R39 356 034, as disclosed in note 34 to the financial statements. This is due to an inadequate system to account for expenditure and the management of the filing system not functioning effectively. I was unable to confirm the expenditure by alternative means. Consequently, I was unable to determine whether any adjustments to this amount were necessary.

Employee related expenditure

13. I was unable to obtain sufficient appropriate audit evidence for overtime payments of R37 367 346. (2011: R 41 254 810), as disclosed in note 27 to the financial statements, due to supporting documentation that could not be obtained for payments made. The municipality's available records and information did not permit the application of alternative procedures. I was unable to confirm the expenditure by alternative means. Consequently, I was unable to determine whether any adjustments to this amount and accumulated surplus were necessary.

Service charges

14. I was unable to obtain sufficient appropriate audit evidence for service charges income of R737 670 225 (2011: R657 988 460), as disclosed in note 23 to the financial statements, due to the municipality not providing supporting documents for adjustments made to revenue and evidence for water and electricity consumed by the customers. Furthermore, the municipality did not bill consumers for all the services delivered. I was unable to confirm the amount by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to the amounts disclosed for service charges.

Revenue from rental of facilities and equipment

15. I was unable to obtain sufficient appropriate audit evidence for revenue generated from rental of facilities and equipment of R10 492 365 (2011: R10 084 902) as disclosed in note 37 to the financial statements. The municipality did not provide receipts and contract agreements supporting rental income that was earned. I was unable to confirm the revenue from rental facilities and equipment by alternative means. Consequently, I was unable to determine whether any adjustments to this amount are necessary.

Value-added tax (VAT) payable

16. The municipality made payments to suppliers who were not registered for VAT, resulting in understatement of VAT payable as disclosed in note 15 to the financial statements and understatement of trade and other receivables by R5 591 115 respectively.

Disclaimer of opinion

17. Because of the significance of the matters described in the Basis for disclaimer of opinion paragraphs, I have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, I do not express an opinion on the financial statements.

Emphasis of matters

18. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

19. As disclosed in note 41 to the financial statements, the corresponding figures for 2010-11 have been restated as a result of errors discovered during 2011-12 in the financial statements of the Matjhabeng Local Municipality at, and for the year ended, 30 June 2011.

Funding of operations

20. During the financial year, the municipality was informed that section 20 of DoRA was invoked for the repayment of unspent conditional grants. Unspent conditional grants for the period 2005-06 to 2009-10 totalling R43 026 325, as disclosed in notes 17 and 24 to the financial statements, were offset against the equitable share allocation of the municipality in the current year.

Going concern

21. As disclosed in note 44 to the financial statements, the ability of the municipality to continue as a going concern is dependent on a number of factors, including obtaining funding on a continuous basis as well as compliance with the in-year reporting mechanism of the National Treasury in order to secure funding from the government to cover expenses and meet obligations. These conditions indicate the existence of a material uncertainty that may cast doubt on the municipality's ability to operate as a going concern and to fund its operations.

Unauthorised expenditure

22. As disclosed in note 45 to the financial statements, unauthorised expenditure to the amount of R1 075 758 597 (2011: R619 645 905) was incurred as a result of the municipality's failure to implement budgetary controls.

Fruitless and wasteful expenditure

23. As disclosed in note 46 to the financial statements, the municipality incurred fruitless and wasteful expenditure of R76 391 793 (2011: R41 013 003) during the year under review due to the municipality's inability to pay its creditors on time.

Irregular expenditure

24. As disclosed in note 47 to the financial statements, the municipality incurred irregular expenditure of R160 377 149 (2011: R112 194 003) during the year under review due to inadequate procurement processes followed.

Additional matter

25. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Supplementary explanations of budget variances presented outside the financial statements

26. The supplementary explanations of budget information contained in actual vs. budget (revenue and expenditure), as referred to in note 50, do not form part of the financial statements. I have not audited these explanations and, accordingly, I do not express an opinion thereon.

Unaudited supplementary schedules

27. The supplementary information set out on pages XX to XX does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

28. In accordance with the PAA and the *General Notice* issued in terms thereof, I report the following findings relevant to performance against predetermined objectives, compliance with laws and regulations and internal control, but not for the purpose of expressing an opinion.

Predetermined objectives

29. I performed procedures to obtain evidence about the usefulness and reliability of the information in the annual performance report as set out on pages ... to ... of the annual report.

30. The reported performance against predetermined objectives was evaluated against the overall criteria of usefulness and reliability. The usefulness of information in the annual performance report relates to whether it is presented in accordance with the National Treasury annual reporting principles and whether the reported performance is consistent with the planned development objectives. The usefulness of information further relates to whether indicators and targets are measurable (i.e. well defined, verifiable, specific, measurable and time bound) and relevant as required by the National Treasury *Framework for managing programme performance information* (FMPPI).

The reliability of the information in respect of the selected development objectives is assessed to determine whether it adequately reflects the facts (i.e. whether it is valid, accurate and complete).

31. The material findings are as follows:

Usefulness of information**Presentation**

32. Improvement measures in the annual performance report for a total of 100% of the planned targets not achieved were not disclosed as required by section 46 of the Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA). This was due to inadequate internal policies and procedures over the processes pertaining to the reporting of performance information.

Consistency

33. The MSA, section 41(c) requires that the integrated development plan (IDP) should form the basis for the annual report, therefore requiring the consistency of objectives, indicators and targets between planning and reporting documents. A total of 86% of the reported objectives, 92% of reported indicators and 99% of reported targets are not consistent with the objectives, indicators and targets as per the approved IDP. This was due to insufficient policies and procedures providing guidance on the requirements of the regulations and a lack of an adequate performance management system.

Measurability

34. The FMPPI requires that performance targets be specific in clearly identifying the nature and required level of performance. A total of 100% of the targets relevant to the infrastructure department's objectives were not specific in clearly identifying the nature and the required level of performance.
35. The FMPPI requires that performance targets be measurable. The required performance could not be measured for a total of 100% of the targets relevant to the infrastructure department's objectives. This was due to inadequate internal policies and procedures over the processes pertaining to the reporting of performance information.
36. The FMPPI requires that the time period or deadline for delivery be specified. A total of 100% of the targets relevant to the infrastructure department's objectives were not time bound in specifying a time period or deadline for delivery.
37. The FMPPI requires that indicators should have clear unambiguous data definitions so that data is collected consistently and is easy to understand and use. A total of 100% of the indicators/measures relevant to the infrastructure department's objectives were not well defined in that clear, unambiguous data definitions were not available to allow for data to be collected consistently.
38. The FMPPI requires that it must be possible to validate the processes and systems that produce the indicator. A total of 100% of the indicators relevant to the infrastructure department's objectives were not verifiable in that valid processes and systems that produce the information on actual performance did not exist.
39. All findings with regard to measurability of predetermined objectives occurred due to inadequate internal policies and procedures being implemented and monitored over the processes pertaining to the reporting of performance information.

Relevance

40. The FMPPI requires that the indicator should relate logically and directly to an aspect of the institution's objectives. A total of 100% of indicators did not relate logically and directly to an aspect of the municipality's objectives as per the IDP. This was due to the lack of development and implementation of proper performance planning and management practices to provide for the development of performance indicators and targets included in the IDP.

Reliability of information

Accuracy

41. The FMPPI requires that the indicator be accurate enough for its intended use and respond to changes in the level of performance. I was unable to obtain all the information and explanations I considered necessary to satisfy myself as to the accuracy of the actual

reported performance relevant to 100% of the infrastructure department's development objectives. Due to limitations of institution's records not permitting the application of alternative audit procedures, I was unable to perform such.

Compliance with laws and regulations

42. I performed procedures to obtain evidence that the entity had complied with applicable laws and regulations regarding financial matters, financial management and other related matters. My findings on material non-compliance with specific matters in key applicable laws and regulations, as set out in the *General Notice* issued in terms of the PAA, are as follows:

Strategic and planning management

43. The municipality did not give effect to its IDP and conduct its affairs in a manner which was consistent with its IDP, as required by section 36 of the MSA and Municipal planning and performance management regulation 6 (MPPMR).
44. The municipality did not establish mechanisms to monitor and review its performance management system, as required by section 40 of the MSA.
45. The municipality did not set measurable performance targets with regard to each development priority and objective as required by section 41 of the MSA.
46. The municipality did not monitor performance with regard to each of those development priorities and objectives and against the key performance indicators and targets set, as required by section 41 of the MSA.

Budget

47. Sufficient appropriate audit evidence could not be obtained that monthly budget statements were submitted to the mayor, relevant provincial treasury and the accounting officer of the municipality, as required by section 71(1) of the MFMA.
48. The accounting officer did not assess the municipality's performance for the first half of the financial year, as required by section 72(1) and 72(1)(a)(ii) of the MFMA.

Annual financial statements, performance and annual reports

49. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA. Material misstatements of non-current assets, current assets, liabilities, revenue, expenditure, disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records provided, but the uncorrected material misstatements and supporting records that could not be provided resulted in the financial statements receiving a disclaimed audit opinion.
50. The accounting officer did not make the 2010-11 annual report public immediately after the annual report was tabled in the council, as required by section 127(5)(a) of the MFMA.
51. The municipal council did not adopt an oversight report containing comments on the annual report within two months from the date on which the 2010-11 annual report was tabled, as required by section 129(1) of the MFMA.

52. The accounting officer did not make public the council's oversight report on the 2010-11 annual report within seven days of its adoption, as required by section 129(3) of the MFMA.

Audit Committee

53. The audit committee did not advise the council, political office bearers, accounting officer and management staff on matters relating to internal financial control and internal audits, risk management, accounting policies, effective governance, performance management and performance evaluation, as required by section 166(2)(a) of the MFMA.
54. The audit committee did not advise the council, political office bearers, accounting officer and the management staff on matters relating to the adequacy, reliability and accuracy of financial reporting and information, as required by section 166(2)(a)(iv) of the MFMA.
55. The audit committee did not advise the council, political office bearers, accounting officer and the management staff on matters relating to compliance with the MFMA and DoRA, as required by section 166(2)(a)(vii) of the MFMA.
56. The audit committee did not review the annual financial statements to provide the council with an authoritative and credible view of the financial position of the entity, its efficiency and effectiveness and its overall level of compliance with the MFMA and DoRA, as required by section 166(2)(b) of the MFMA.
57. The audit committee did not respond to the council on the issues raised in the audit reports of the Auditor-General, as required by section 166(2)(c) of the MFMA.
58. The audit committee did not meet at least four times a year, as required by section 166(4)(b) of the MFMA.

Internal audit

59. The internal audit unit did not function as required by section 165(2) of the MFMA, in that:
- it did not prepare a risk-based audit plan and an internal audit programme for the financial year under review.
 - it did not report to the audit committee on the implementation of the internal audit plan.
 - it did not advise the accounting officer and/or report to the audit committee on matters relating to internal audit, internal controls, accounting procedures and practices, risk and risk management and loss control.
60. The internal audit unit did not report to the audit committee on matters relating to compliance with the MFMA, DoRA and other applicable legislation, as required by section 165(2)(b) of the MFMA.
61. The internal audit unit did not audit the results of performance measurements, as required by section 45(1)(a) of the MSA and MPPMR 14(1)(a).
62. The internal audit unit did not assess the functionality of the performance management system, whether the performance management system complied with the requirements of

the MSA and the extent to which the performance measurements were reliable in measuring the performance of the municipality on key and general performance indicators, as required by MPPMR 14(1)(b)(i)-(iii).

63. The internal audit unit did not audit the performance measurements on a continuous basis and submit quarterly reports on their audits to the municipal manager and the performance audit committee, as required by MPPMR 14(1)(c).

Human resource management

64. Appointments were made in posts which were not provided for on the approved staff establishment of the municipality, in contravention of section 66(3) of MSA.
65. Job descriptions were not established for all posts in which appointments were made in the current year, in contravention of section 66(1)(b) of MSA.
66. The employment contract of the municipal manager could not be obtained to confirm that the duration of the contract does not exceed a period of five years, as required by section 57(6) of the MSA.
67. The municipal manager and senior managers directly accountable to the municipal manager did not sign performance agreements, as required by section 57(2)(a) of the MSA.

Procurement and contract management

68. Sufficient appropriate audit evidence could not be obtained that goods and services with a transaction value of below R200 000 were procured by means of obtaining the required price quotations, as required by SCM regulation 17(a) and (c).
69. Sufficient appropriate audit evidence could not be obtained that goods and services of a transaction value above R500 000 were procured by means of inviting competitive bids and that deviations were approved by the accounting officer only if it was impractical to invite competitive bids, as required by SCM regulations 19(a) and 36(1).
70. Bid adjudication was not always done by committees which were composed in accordance with SCM regulation 29(2).
71. Sufficient appropriate audit evidence could not be obtained that bid specifications for procurement of goods and services through competitive bids were drafted in an unbiased manner that allowed all potential suppliers to offer their goods or services, as per required by SCM regulation 27(2)(a).
72. Sufficient appropriate audit evidence could not be obtained that bid specifications were drafted by bid specification committees which were composed of one or more officials of the municipality, as required by SCM regulation 27(3).
73. Sufficient appropriate audit evidence could not be obtained that contracts were awarded to and quotations were accepted from bidders that scored the highest points in the evaluation process, as required by section 2(1)(f) of Preferential Procurement Policy Framework Act.

74. The preference point system was not applied in all procurement of goods and services above R30 000, as required by section 2(a) of the Preferential Procurement Policy Framework Act and SCM regulation 28(1)(a).
75. Contracts were awarded to and quotations accepted from providers that are listed on the National Treasury's database as persons prohibited from doing business with the public sector, in contravention of SCM regulation 38(1)(c).
76. The performance of contractors or providers was not monitored on a monthly basis, as required by section 116(2)(b) of the MFMA.
77. The contract performance and monitoring measures and methods were insufficient to ensure effective contract management, as required by section 116(2)(c) of the MFMA.
78. Sufficient appropriate audit evidence could not be obtained that contracts were only extended or modified after tabling the reasons for the proposed amendment in the council of the municipality, as required by section 116(3) of the MFMA.
79. Sufficient appropriate audit evidence could not be obtained that all extension or modification to contracts were approved by a properly delegated official, as required by SCM Regulation 5.
80. Sufficient appropriate audit evidence could not be obtained that contracts were only awarded to and quotations accepted from bidders who had submitted a declaration on whether they are employed by the state or connected to any person employed by the state, as required by SCM regulation 13(c).
81. Contracts were awarded to and quotations accepted from providers whose tax matters had not been declared by the South African Revenue Service to be in order, as required by SCM regulation 43.
82. Sufficient appropriate audit evidence could not be obtained that construction contracts were awarded to contractors that were registered with the Construction Industry Development Board (CIDB) and qualified for the contract in accordance with section 18(1) of the CIDB Act and CIDB regulations 17 and 25(7A).
83. The prospective providers list for procuring goods and services through quotations was not updated at least quarterly to include new suppliers that qualify for listing, and prospective providers were not invited to apply for such listing at least once a year as per the requirements of SCM regulation 14(1)(a)(ii) and 14(2).
84. The accounting officer failed to implement measures to combat the abuse of the SCM system as per the requirements of SCM regulation 38(1) because awards were made to providers who, during the last five years, had failed to perform satisfactorily on a previous

contract with the municipality or municipal entity or other organ of state and abused the SCM system of the municipality.

Expenditure management

- 85. Money owing by the municipality was not always paid within 30 days of receiving an invoice or statement, as required by sections 65(2)(e) and 99(2)(b) of the MFMA.
- 86. An effective system of expenditure control, including procedures for the approval, authorisation, withdrawal and payment of funds, was not in place as required by section 65(2)(a) of the MFMA.
- 87. The accounting officer did not take effective steps to prevent unauthorised expenditure, irregular expenditure and fruitless and wasteful expenditure, as required by section 62(1)(d) of the MFMA.
- 88. Unauthorised, irregular, fruitless and wasteful expenditure was not recovered from the liable person, as required by section 32(2) of the MFMA.

Revenue management

- 89. An adequate management, accounting and information system was not in place which recognised revenue when it was earned, accounted for debtors and accounted for receipts of revenue, as required by section 64(2)(e) of the MFMA.
- 90. Interest was not charged on all accounts in arrears, as required by section 64(2)(g) of the MFMA.

Asset management

- 91. An adequate management, accounting and information system which accounts for assets was not in place, as required by section 63(2)(a) of the MFMA.
- 92. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

Internal control

- 93. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with laws and regulations. The matters reported below under the fundamentals of internal control are limited to the significant deficiencies that resulted in the basis for disclaimer of opinion, the findings on the annual performance report and the findings on compliance with laws and regulations included in this report.

Leadership

- 94. The municipality continued to display a lack of stability in senior management positions with the result that positions of senior managers, including the position of the chief financial officer, have been vacant for a prolonged period (more than 24 months). Officials were appointed in acting capacities, which resulted in a breakdown in the implementation of basic daily/monthly disciplines due to lack of accountability.

95. The accounting officer, together with his management team, did not fully commit to the development, implementation and monitoring of a practical action plan to address internal control deficiencies identified in preceding years so as to eliminate repeat audit findings.
96. Municipal structures delegated with the oversight responsibility did not fully enforce management accountability by implementing effective oversight and by demanding credible information.
97. Management did not implement effective human resource (HR) management practices such as effective recruitment to ensure that adequate and sufficiently skilled resources are in place. The municipality did not have a performance management system in place, which resulted in the absence of an effective performance management culture.
98. Management did not continuously establish, review and communicate policies and procedures to enable understanding and execution of internal control objectives, processes and responsibilities to mitigate the risks of the municipality.

Financial and performance management

99. Management did not implement proper record keeping in a timely manner to ensure that complete, reliable and accurate information is easily accessible to support financial and performance reporting.
100. Management did not implement controls over the preparation of daily/monthly disciplines of processing and reconciling of transactions due to a lack of sufficiently skilled staff and the lack of policies and procedures.
101. The municipal officials continue to disregard compliance with laws and regulations due to lack of management tools to review and monitor compliance and the lack of consequences for transgressors, resulting in a consistent increase in reported irregular as well as fruitless and wasteful expenditure without action being taken against the responsible officials.

Governance

102. Management did not prioritise the implementation of appropriate risk management activities to ensure that regular risk assessments, including consideration of information technology (IT) risks and fraud prevention, are conducted and that a risk strategy to mitigate the risks is developed and continuously monitored.
103. Management disregarded internal audit findings and therefore a significant number of repeat findings were reported, resulting in ineffectiveness of the internal audit function.
104. The internal audit function did not conduct internal audits/reviews of performance management systems that focused on compliance aspects as well as the usefulness and reliability of the reported performance information.
105. Internal audit did not review the financial and performance reports prior to its submission to the audit committee or external auditors due to management not making available these reports to the internal audit unit for such reviews.

106. The audit committee did not function throughout the year. Members were appointed five months into the current financial year. Consequently, the committee did not approve the internal audit plan and has not exercised any oversight of the implementation of the matters reported by the internal audit function.

OTHER REPORTS

Investigations

107. An independent consulting firm was appointed by the municipality during the 2010-11 financial year to conduct an investigation into various aspects at the municipality covering the financial years 2009-10 to 2010-11. Only a draft report was submitted to the municipality. No date for finalising this report has been provided.

Auditor-General

Bloemfontein

5 December 2012

AUDITOR-GENERAL
SOUTH AFRICA

Auditing to build public confidence

**REPORT OF THE AUDITOR-GENERAL TO THE FREE
STATE PROVINCIAL LEGISLATURE ON THE
MATJHABENG LOCAL MUNICIPALITY FOR THE
YEAR ENDED 30 JUNE 2013**

**REPORT OF THE AUDITOR-GENERAL TO THE FREE STATE PROVINCIAL LEGISLATURE
AND THE COUNCIL ON THE MATJHABENG LOCAL MUNICIPALITY**

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I was engaged to audit the financial statements of the Matjhabeng Local Municipality set out on pages xx to xx, which comprise the statement of financial position as at 30 June 2012, the statements of financial performance, changes in net assets and cash flows for the year then ended, and the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and in the manner required by the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2011 (Act No. 6 of 2011) (DoRA) and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. My responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), the *General Notice* issued in terms thereof and International Standards on Auditing. Because of the matters described in the basis for disclaimer of opinion paragraphs, however, I was unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

Property, plant and equipment

4. I was unable to obtain sufficient appropriate audit evidence for property, plant and equipment of R4 456 966 678 (2011: R4 586 902 161), as disclosed in note 8 to the financial statements, to substantiate the values recorded in the asset register. I have not determined the correct net carrying amount of property, plant and equipment or the accuracy of depreciation as it was impracticable to do so due to inadequate descriptions and locations recorded in the asset register to facilitate physical verification of the condition and existence of the assets. In addition, the asset register includes assets without values. I was unable to confirm by alternative means whether the municipality accurately had valued all its assets and conducted impairment assessment for all municipal assets at each reporting date in accordance with SA Standards of GRAP, GRAP 17, *Property, plant and equipment* and GRAP 21, *Impairment of non-cash-generating assets* and GRAP 26, *Impairment of cash-generated assets*. Consequently, I was unable to determine whether any adjustments were necessary to the amounts disclosed for property, plant and equipment.

Investment property

5. I was unable to obtain sufficient appropriate audit evidence for property, plant and equipment of R283 160 912 (2011: R314 042 068), as disclosed in note 50 to the financial statements, to substantiate the values recorded in the asset register. I have not determined

the correct net carrying amount of investment property or the accuracy of depreciation as it was impracticable to do so due to inadequate descriptions and locations recorded in the asset register to facilitate physical verification of the condition and existence of the assets. In addition, the asset register includes assets without values. I was unable to confirm by alternative means whether the municipality had accurately valued all its assets and conducted impairment assessment for all municipal assets at each reporting date in accordance with SA Standards of GRAP, GRAP 16, *Investment property* and GRAP 26, *Impairment of cash-generated assets*. Consequently, I was unable to determine whether any adjustments were necessary to the amounts disclosed for investment property.

Consumer debtors

6. I was unable to obtain sufficient appropriate audit evidence of consumer debtors with a balance of R1 493 489 369 (2011: R1 142 535 294), as disclosed in note 6 to the financial statements, due to consumers being billed using incorrect tariffs, accounts with credit balances totalling R21 128 890 and the lack of approval for debt written off. I was unable to confirm the balance for the consumer debtors by alternative means. In addition certain consumer accounts were not impaired in terms of International Accounting Standard, IAS 39, *Financial instruments: Recognition and measurement*. Consequently, I was unable to determine whether any adjustments were necessary to the amounts disclosed for consumer debtors.

Non-current consumer debtors

7. I was unable to obtain sufficient appropriate audit evidence for non-current consumer debtors with a balance of R23 057 044 (2011: R19 879 217), as disclosed in note 9 to the financial statements, due to the municipality being unable to provide signed service contracts with renegotiated payments terms. In the absence of payments after year-end, I was unable to confirm the existence, completeness and valuation of and the municipality's rights to non-current debtors and whether any adjustments were necessary to the amounts disclosed for non-current consumer debtors.

Inventory

8. The municipality did not record all inventories that met the recognition criteria set out in the SA Standards of GRAP, GRAP 12 *Inventory*. The municipality also did not perform an inventory count at year-end to verify the existence of inventory. I have not determined the correct amount of inventory as it was impracticable due to lack of inventory records.

Trade and other payables

9. The municipality did not have adequate systems in place to update and reconcile leave records, which resulted in the accrued leave pay as disclosed in note 14 and accumulated surplus being understated by R19 141 020, respectively. In addition, I was unable to obtain sufficient appropriate audit evidence for payables amounting to R48 900 163, representing retention monies and accruals, as disclosed in note 14 to the financial statements, due to contracts indicating the agreed-upon retention monies and a detailed breakdown of accruals not being provided for audit purposes. I was unable to confirm the accrued leave pay and accruals by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to the amount disclosed for payables.

Provisions

10. I was unable to obtain sufficient appropriate audit evidence for provisions amounting to R86 063 718 (R58 483 608), as disclosed in note 18 to the financial statements, in respect of rehabilitation of landfill sites due to lack of evidence to support assumptions used in the calculation this provision; consequently, I was unable to confirm the completeness and valuation of provision for landfill sites by alternative means. I was unable to determine whether any adjustments were necessary to the amount disclosed for the provision.

Leases

11. SA Standards of GRAP, GRAP 13, *Leases* defines the criteria for the classification of leases as either a finance lease or an operating lease. I was unable to obtain sufficient appropriate audit evidence about leased assets of R7 073 268 (2011: R11 845 900), as disclosed in note 13 to the financial statements, and operating expenses of R38 367 078 disclosed in note 34, due to contracts entered into with the lessors not provided. I was unable to confirm the correct treatment of the leases in terms of GRAP 13 by alternative means. Consequently, I was unable to determine whether any further adjustments were necessary to the amount disclosed for leases.

Expenditure

12. I was unable to obtain sufficient appropriate audit evidence for general expenditure of R39 356 034, as disclosed in note 34 to the financial statements. This is due to an inadequate system to account for expenditure and the management of the filing system not functioning effectively. I was unable to confirm the expenditure by alternative means. Consequently, I was unable to determine whether any adjustments to this amount were necessary.

Employee related expenditure

13. I was unable to obtain sufficient appropriate audit evidence for overtime payments of R37 367 346. (2011: R 41 254 810), as disclosed in note 27 to the financial statements, due to supporting documentation that could not be obtained for payments made. The municipality's available records and information did not permit the application of alternative procedures. I was unable to confirm the expenditure by alternative means. Consequently, I was unable to determine whether any adjustments to this amount and accumulated surplus were necessary.

Service charges

14. I was unable to obtain sufficient appropriate audit evidence for service charges income of R737 670 225 (2011: R657 988 460), as disclosed in note 23 to the financial statements, due to the municipality not providing supporting documents for adjustments made to revenue and evidence for water and electricity consumed by the customers. Furthermore, the municipality did not bill consumers for all the services delivered. I was unable to confirm the amount by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to the amounts disclosed for service charges.

Revenue from rental of facilities and equipment

15. I was unable to obtain sufficient appropriate audit evidence for revenue generated from rental of facilities and equipment of R10 492 365 (2011: R10 084 902) as disclosed in note 37 to the financial statements. The municipality did not provide receipts and contract agreements supporting rental income that was earned. I was unable to confirm the revenue from rental facilities and equipment by alternative means. Consequently, I was unable to determine whether any adjustments to this amount are necessary.

Value-added tax (VAT) payable

16. The municipality made payments to suppliers who were not registered for VAT, resulting in understatement of VAT payable as disclosed in note 15 to the financial statements and understatement of trade and other receivables by R5 591 115 respectively.

Disclaimer of opinion

17. Because of the significance of the matters described in the Basis for disclaimer of opinion paragraphs, I have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, I do not express an opinion on the financial statements.

Emphasis of matters

18. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

19. As disclosed in note 41 to the financial statements, the corresponding figures for 2010-11 have been restated as a result of errors discovered during 2011-12 in the financial statements of the Matjhabeng Local Municipality at, and for the year ended, 30 June 2011.

Funding of operations

20. During the financial year, the municipality was informed that section 20 of DoRA was invoked for the repayment of unspent conditional grants. Unspent conditional grants for the period 2005-06 to 2009-10 totalling R43 026 325, as disclosed in notes 17 and 24 to the financial statements, were offset against the equitable share allocation of the municipality in the current year.

Going concern

21. As disclosed in note 44 to the financial statements, the ability of the municipality to continue as a going concern is dependent on a number of factors, including obtaining funding on a continuous basis as well as compliance with the in-year reporting mechanism of the National Treasury in order to secure funding from the government to cover expenses and meet obligations. These conditions indicate the existence of a material uncertainty that may cast doubt on the municipality's ability to operate as a going concern and to fund its operations.

Unauthorised expenditure

22. As disclosed in note 45 to the financial statements, unauthorised expenditure to the amount of R1 075 758 597 (2011: R619 645 905) was incurred as a result of the municipality's failure to implement budgetary controls.

Fruitless and wasteful expenditure

23. As disclosed in note 46 to the financial statements, the municipality incurred fruitless and wasteful expenditure of R76 391 793 (2011: R41 013 003) during the year under review due to the municipality's inability to pay its creditors on time.

Irregular expenditure

24. As disclosed in note 47 to the financial statements, the municipality incurred irregular expenditure of R160 377 149 (2011: R112 194 003) during the year under review due to inadequate procurement processes followed.

Additional matter

25. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Supplementary explanations of budget variances presented outside the financial statements

26. The supplementary explanations of budget information contained in actual vs. budget (revenue and expenditure), as referred to in note 50, do not form part of the financial statements. I have not audited these explanations and, accordingly, I do not express an opinion thereon.

Unaudited supplementary schedules

27. The supplementary information set out on pages XX to XX does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

28. In accordance with the PAA and the *General Notice* issued in terms thereof, I report the following findings relevant to performance against predetermined objectives, compliance with laws and regulations and internal control, but not for the purpose of expressing an opinion.

Predetermined objectives

29. I performed procedures to obtain evidence about the usefulness and reliability of the information in the annual performance report as set out on pages ... to ... of the annual report.
30. The reported performance against predetermined objectives was evaluated against the overall criteria of usefulness and reliability. The usefulness of information in the annual performance report relates to whether it is presented in accordance with the National Treasury annual reporting principles and whether the reported performance is consistent with the planned development objectives. The usefulness of information further relates to whether indicators and targets are measurable (i.e. well defined, verifiable, specific, measurable and time bound) and relevant as required by the National Treasury *Framework for managing programme performance information (FMPPi)*.

The reliability of the information in respect of the selected development objectives is assessed to determine whether it adequately reflects the facts (i.e. whether it is valid, accurate and complete).

31. The material findings are as follows:

Usefulness of information**Presentation**

32. Improvement measures in the annual performance report for a total of 100% of the planned targets not achieved were not disclosed as required by section 46 of the Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA). This was due to inadequate internal policies and procedures over the processes pertaining to the reporting of performance information.

Consistency

33. The MSA, section 41(c) requires that the integrated development plan (IDP) should form the basis for the annual report, therefore requiring the consistency of objectives, indicators and targets between planning and reporting documents. A total of 86% of the reported objectives, 92% of reported indicators and 99% of reported targets are not consistent with the objectives, indicators and targets as per the approved IDP. This was due to insufficient policies and procedures providing guidance on the requirements of the regulations and a lack of an adequate performance management system.

Measurability

34. The FMPPI requires that performance targets be specific in clearly identifying the nature and required level of performance. A total of 100% of the targets relevant to the infrastructure department's objectives were not specific in clearly identifying the nature and the required level of performance.
35. The FMPPI requires that performance targets be measurable. The required performance could not be measured for a total of 100% of the targets relevant to the infrastructure department's objectives. This was due to inadequate internal policies and procedures over the processes pertaining to the reporting of performance information.
36. The FMPPI requires that the time period or deadline for delivery be specified. A total of 100% of the targets relevant to the infrastructure department's objectives were not time bound in specifying a time period or deadline for delivery.
37. The FMPPI requires that indicators should have clear unambiguous data definitions so that data is collected consistently and is easy to understand and use. A total of 100% of the indicators/measures relevant to the infrastructure department's objectives were not well defined in that clear, unambiguous data definitions were not available to allow for data to be collected consistently.
38. The FMPPI requires that it must be possible to validate the processes and systems that produce the indicator. A total of 100% of the indicators relevant to the infrastructure department's objectives were not verifiable in that valid processes and systems that produce the information on actual performance did not exist.
39. All findings with regard to measurability of predetermined objectives occurred due to inadequate internal policies and procedures being implemented and monitored over the processes pertaining to the reporting of performance information.

Relevance

40. The FMPPI requires that the indicator should relate logically and directly to an aspect of the institution's objectives. A total of 100% of indicators did not relate logically and directly to an aspect of the municipality's objectives as per the IDP. This was due to the lack of development and implementation of proper performance planning and management practices to provide for the development of performance indicators and targets included in the IDP.

Reliability of information

Accuracy

41. The FMPPI requires that the indicator be accurate enough for its intended use and respond to changes in the level of performance. I was unable to obtain all the information and explanations I considered necessary to satisfy myself as to the accuracy of the actual

reported performance relevant to 100% of the infrastructure department's development objectives. Due to limitations of institution's records not permitting the application of alternative audit procedures, I was unable to perform such.

Compliance with laws and regulations

42. I performed procedures to obtain evidence that the entity had complied with applicable laws and regulations regarding financial matters, financial management and other related matters. My findings on material non-compliance with specific matters in key applicable laws and regulations, as set out in the *General Notice* issued in terms of the PAA, are as follows:

Strategic and planning management

43. The municipality did not give effect to its IDP and conduct its affairs in a manner which was consistent with its IDP, as required by section 36 of the MSA and Municipal planning and performance management regulation 6 (MPPMR).
44. The municipality did not establish mechanisms to monitor and review its performance management system, as required by section 40 of the MSA.
45. The municipality did not set measurable performance targets with regard to each development priority and objective as required by section 41 of the MSA.
46. The municipality did not monitor performance with regard to each of those development priorities and objectives and against the key performance indicators and targets set, as required by section 41 of the MSA.

Budget

47. Sufficient appropriate audit evidence could not be obtained that monthly budget statements were submitted to the mayor, relevant provincial treasury and the accounting officer of the municipality, as required by section 71(1) of the MFMA.
48. The accounting officer did not assess the municipality's performance for the first half of the financial year, as required by section 72(1) and 72(1)(a)(ii) of the MFMA.

Annual financial statements, performance and annual reports

49. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA. Material misstatements of non-current assets, current assets, liabilities, revenue, expenditure, disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records provided, but the uncorrected material misstatements and supporting records that could not be provided resulted in the financial statements receiving a disclaimed audit opinion.
50. The accounting officer did not make the 2010-11 annual report public immediately after the annual report was tabled in the council, as required by section 127(5)(a) of the MFMA.
51. The municipal council did not adopt an oversight report containing comments on the annual report within two months from the date on which the 2010-11 annual report was tabled, as required by section 129(1) of the MFMA.

52. The accounting officer did not make public the council's oversight report on the 2010-11 annual report within seven days of its adoption, as required by section 129(3) of the MFMA.

Audit Committee

53. The audit committee did not advise the council, political office bearers, accounting officer and management staff on matters relating to internal financial control and internal audits, risk management, accounting policies, effective governance, performance management and performance evaluation, as required by section 166(2)(a) of the MFMA.
54. The audit committee did not advise the council, political office bearers, accounting officer and the management staff on matters relating to the adequacy, reliability and accuracy of financial reporting and information, as required by section 166(2)(a)(iv) of the MFMA.
55. The audit committee did not advise the council, political office bearers, accounting officer and the management staff on matters relating to compliance with the MFMA and DoRA, as required by section 166(2)(a)(vii) of the MFMA.
56. The audit committee did not review the annual financial statements to provide the council with an authoritative and credible view of the financial position of the entity, its efficiency and effectiveness and its overall level of compliance with the MFMA and DoRA, as required by section 166(2)(b) of the MFMA.
57. The audit committee did not respond to the council on the issues raised in the audit reports of the Auditor-General, as required by section 166(2)(c) of the MFMA.
58. The audit committee did not meet at least four times a year, as required by section 166(4)(b) of the MFMA.

Internal audit

59. The internal audit unit did not function as required by section 165(2) of the MFMA, in that:
- it did not prepare a risk-based audit plan and an internal audit programme for the financial year under review.
 - it did not report to the audit committee on the implementation of the internal audit plan.
 - it did not advise the accounting officer and/or report to the audit committee on matters relating to internal audit, internal controls, accounting procedures and practices, risk and risk management and loss control.
60. The internal audit unit did not report to the audit committee on matters relating to compliance with the MFMA, DoRA and other applicable legislation, as required by section 165(2)(b) of the MFMA.
61. The internal audit unit did not audit the results of performance measurements, as required by section 45(1)(a) of the MSA and MPPMR 14(1)(a).
62. The internal audit unit did not assess the functionality of the performance management system, whether the performance management system complied with the requirements of

the MSA and the extent to which the performance measurements were reliable in measuring the performance of the municipality on key and general performance indicators, as required by MPPMR 14(1)(b)(i)-(iii).

63. The internal audit unit did not audit the performance measurements on a continuous basis and submit quarterly reports on their audits to the municipal manager and the performance audit committee, as required by MPPMR 14(1)(c).

Human resource management

64. Appointments were made in posts which were not provided for on the approved staff establishment of the municipality, in contravention of section 66(3) of MSA.
65. Job descriptions were not established for all posts in which appointments were made in the current year, in contravention of section 66(1)(b) of MSA.
66. The employment contract of the municipal manager could not be obtained to confirm that the duration of the contract does not exceed a period of five years, as required by section 57(6) of the MSA.
67. The municipal manager and senior managers directly accountable to the municipal manager did not sign performance agreements, as required by section 57(2)(a) of the MSA.

Procurement and contract management

68. Sufficient appropriate audit evidence could not be obtained that goods and services with a transaction value of below R200 000 were procured by means of obtaining the required price quotations, as required by SCM regulation 17(a) and (c).
69. Sufficient appropriate audit evidence could not be obtained that goods and services of a transaction value above R500 000 were procured by means of inviting competitive bids and that deviations were approved by the accounting officer only if it was impractical to invite competitive bids, as required by SCM regulations 19(a) and 36(1).
70. Bid adjudication was not always done by committees which were composed in accordance with SCM regulation 29(2).
71. Sufficient appropriate audit evidence could not be obtained that bid specifications for procurement of goods and services through competitive bids were drafted in an unbiased manner that allowed all potential suppliers to offer their goods or services, as per required by SCM regulation 27(2)(a).
72. Sufficient appropriate audit evidence could not be obtained that bid specifications were drafted by bid specification committees which were composed of one or more officials of the municipality, as required by SCM regulation 27(3).
73. Sufficient appropriate audit evidence could not be obtained that contracts were awarded to and quotations were accepted from bidders that scored the highest points in the evaluation process, as required by of section 2(1)(f) of Preferential Procurement Policy Framework Act.

74. The preference point system was not applied in all procurement of goods and services above R30 000, as required by section 2(a) of the Preferential Procurement Policy Framework Act and SCM regulation 28(1)(a).
75. Contracts were awarded to and quotations accepted from providers that are listed on the National Treasury's database as persons prohibited from doing business with the public sector, in contravention of SCM regulation 38(1)(c).
76. The performance of contractors or providers was not monitored on a monthly basis, as required by section 116(2)(b) of the MFMA.
77. The contract performance and monitoring measures and methods were insufficient to ensure effective contract management, as required by section 116(2)(c) of the MFMA.
78. Sufficient appropriate audit evidence could not be obtained that contracts were only extended or modified after tabling the reasons for the proposed amendment in the council of the municipality, as required by section 116(3) of the MFMA.
79. Sufficient appropriate audit evidence could not be obtained that all extension or modification to contracts were approved by a properly delegated official, as required by SCM Regulation 5.
80. Sufficient appropriate audit evidence could not be obtained that contracts were only awarded to and quotations accepted from bidders who had submitted a declaration on whether they are employed by the state or connected to any person employed by the state, as required by SCM regulation 13(c).
81. Contracts were awarded to and quotations accepted from providers whose tax matters had not been declared by the South African Revenue Service to be in order, as required by SCM regulation 43.
82. Sufficient appropriate audit evidence could not be obtained that construction contracts were awarded to contractors that were registered with the Construction Industry Development Board (CIDB) and qualified for the contract in accordance with section 18(1) of the CIDB Act and CIDB regulations 17 and 25(7A).
83. The prospective providers list for procuring goods and services through quotations was not updated at least quarterly to include new suppliers that qualify for listing, and prospective providers were not invited to apply for such listing at least once a year as per the requirements of SCM regulation 14(1)(a)(ii) and 14(2).
84. The accounting officer failed to implement measures to combat the abuse of the SCM system as per the requirements of SCM regulation 38(1) because awards were made to providers who, during the last five years, had failed to perform satisfactorily on a previous

contract with the municipality or municipal entity or other organ of state and abused the SCM system of the municipality.

Expenditure management

- 85. Money owing by the municipality was not always paid within 30 days of receiving an invoice or statement, as required by sections 65(2)(e) and 99(2)(b) of the MFMA.
- 86. An effective system of expenditure control, including procedures for the approval, authorisation, withdrawal and payment of funds, was not in place as required by section 65(2)(a) of the MFMA.
- 87. The accounting officer did not take effective steps to prevent unauthorised expenditure, irregular expenditure and fruitless and wasteful expenditure, as required by section 62(1)(d) of the MFMA.
- 88. Unauthorised, irregular, fruitless and wasteful expenditure was not recovered from the liable person, as required by section 32(2) of the MFMA.

Revenue management

- 89. An adequate management, accounting and information system was not in place which recognised revenue when it was earned, accounted for debtors and accounted for receipts of revenue, as required by section 64(2)(e) of the MFMA.
- 90. Interest was not charged on all accounts in arrears, as required by section 64(2)(g) of the MFMA.

Asset management

- 91. An adequate management, accounting and information system which accounts for assets was not in place, as required by section 63(2)(a) of the MFMA.
- 92. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

Internal control

- 93. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with laws and regulations. The matters reported below under the fundamentals of internal control are limited to the significant deficiencies that resulted in the basis for disclaimer of opinion, the findings on the annual performance report and the findings on compliance with laws and regulations included in this report.

Leadership

- 94. The municipality continued to display a lack of stability in senior management positions with the result that positions of senior managers, including the position of the chief financial officer, have been vacant for a prolonged period (more than 24 months). Officials were appointed in acting capacities, which resulted in a breakdown in the implementation of basic daily/monthly disciplines due to lack of accountability.

95. The accounting officer, together with his management team, did not fully commit to the development, implementation and monitoring of a practical action plan to address internal control deficiencies identified in preceding years so as to eliminate repeat audit findings.
96. Municipal structures delegated with the oversight responsibility did not fully enforce management accountability by implementing effective oversight and by demanding credible information.
97. Management did not implement effective human resource (HR) management practices such as effective recruitment to ensure that adequate and sufficiently skilled resources are in place. The municipality did not have a performance management system in place, which resulted in the absence of an effective performance management culture.
98. Management did not continuously establish, review and communicate policies and procedures to enable understanding and execution of internal control objectives, processes and responsibilities to mitigate the risks of the municipality.

Financial and performance management

99. Management did not implement proper record keeping in a timely manner to ensure that complete, reliable and accurate information is easily accessible to support financial and performance reporting.
100. Management did not implement controls over the preparation of daily/monthly disciplines of processing and reconciling of transactions due to a lack of sufficiently skilled staff and the lack of policies and procedures.
101. The municipal officials continue to disregard compliance with laws and regulations due to lack of management tools to review and monitor compliance and the lack of consequences for transgressors, resulting in a consistent increase in reported irregular as well as fruitless and wasteful expenditure without action being taken against the responsible officials.

Governance

102. Management did not prioritise the implementation of appropriate risk management activities to ensure that regular risk assessments, including consideration of information technology (IT) risks and fraud prevention, are conducted and that a risk strategy to mitigate the risks is developed and continuously monitored.
103. Management disregarded internal audit findings and therefore a significant number of repeat findings were reported, resulting in ineffectiveness of the internal audit function.
104. The internal audit function did not conduct internal audits/reviews of performance management systems that focused on compliance aspects as well as the usefulness and reliability of the reported performance information.
105. Internal audit did not review the financial and performance reports prior to its submission to the audit committee or external auditors due to management not making available these reports to the internal audit unit for such reviews.

106. The audit committee did not function throughout the year. Members were appointed five months into the current financial year. Consequently, the committee did not approve the internal audit plan and has not exercised any oversight of the implementation of the matters reported by the internal audit function.

OTHER REPORTS

Investigations

107. An independent consulting firm was appointed by the municipality during the 2010-11 financial year to conduct an investigation into various aspects at the municipality covering the financial years 2009-10 to 2010-11. Only a draft report was submitted to the municipality. No date for finalising this report has been provided.

Bloemfontein

5 December 2012

**AUDITOR - GENERAL
SOUTH AFRICA**

Auditing to build public confidence

GLOSSARY

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give “ <i>full and regular</i> ” reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe “ <i>what we do</i> ”.
Adequacy indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.
Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic municipal service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.
Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General performance indicators	Key After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.
Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are “ <i>what we use to do the work</i> ”. They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Plan Set out municipal goals and development plans.
National	Key <ul style="list-style-type: none"> • Service delivery & infrastructure

performance areas	<ul style="list-style-type: none"> • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.
Performance Indicator	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)
Performance Information	Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the mayor for implementing the municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included.
Vote:	<p>One of the main segments into which a budget of a municipality is divided for appropriation of money for the different departments or functional areas of the municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area.</p> <p>Section 1 of the MFMA defines a "vote" as:</p> <p><i>a) one of the main segments into which a budget of a municipality is divided for the</i></p>

	<p><i>appropriation of money for the different departments or functional areas of the municipality; and</i></p> <p><i>b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned</i></p>

APPENDIX B – COMMITTEES (OTHER THAN MAYORAL / EXECUTIVE COMMITTEE) AND PURPOSES OF COMMITTEES

Committees (other than Mayoral / Executive Committee) and Purposes of Committees	
Municipal Committees	Purpose of Committee
Chairpersons Committee	Coordination of Ward Councillors affairs
Audit Committee	Performance Auditing of the Municipality
Municipal Public Accounts Committee[MPAC]	Oversight on financial activities of the Municipality
Rules Sec 79 Committee	Monitor implementation of Rules
Municipal Demarcation Committee	Discuss and make recommendations to Council on determination of Municipal boundaries
Housing Dispute Resolution Committee	Handles community disputes over ownership and occupancy of sites
T B	

APPENDIX E – WARD REPORTING

FUNCTIONALITY OF WARD COMMITTEES BROAD COMMENTS ON PUBLIC PARTICIPATION

- The office has for development and a single public participation programme of the municipality; there has not been any response to that;
- The office remains grossly inadequate to satisfactorily respond to the expectations of meaningful public participation; there is literally only one car and one driver to service 36 wards;
- In recent years, there has been a proliferation of provincial and national departments as well as other public entities rolling out their outreach programmes to the municipality, which have further stretched our limited capacity;
- There is a need to improve communication and interaction between the Offices of the Speaker and the Mayor for monitoring and reporting on the IDP and Budget-related consultations. This also extends to Imbizos as they are led by the Office of the Executive Mayor;
- In the last financial year, the 'impromptu' meetings facilitated by the 'ad hoc' committee on the launching of projects disrupted a significant number of our the planned wards constituency meetings;
- The input in the annual report is done relying on the monthly reports of the ward councillors. Some wards do carry out their activities but do not report. This therefore means that in actual practice, the reality is better what is reported;
- In the last year, the Office of the Speaker also established the stakeholders forum within Matjhabeng, which seeks to broaden the space of public participation beyond the ward committees;
- Ward Constituency meetings constantly discuss service delivery issues. But they also include feedback on the latest developments and challenges.

TE

Functionality of Ward Committees					
Ward Name (Number)	Name of Ward Councillor and elected Ward committee members	Committee established (Yes / No)	Number of monthly Committee meetings held during the year	Number of monthly reports submitted to Speakers Office on time	Number of quarterly public ward meetings held during year

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the financial statements and are given unrestricted access to all financial records and related data.

The financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

I am responsible for the preparation of these annual financial statements in terms of Section 126(1) of the Municipal Finance Management Act, and which I have signed on behalf of the municipality.

I certify that the salaries, allowances and benefits of Councillors, loans made to Councillors, if any, and payments made to Councillors for loss of office, if any, as disclosed in note 27 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act, except as disclosed in note 47 of these financial statements.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2014 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The municipality is dependent on the government for continued funding of operations to a large extent. The financial statements are prepared on the basis that the municipality is a going concern and that the government has neither the intention nor the need to liquidate or curtail materially the scale of the municipality.

Although the accounting officer is primarily responsible for the financial affairs of the municipality, they are supported by COGTA and Treasury.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Officer's Responsibilities and Approval

The external auditors are responsible for independently reviewing and reporting on the municipality's financial statements. The financial statements have been examined by the municipality's external auditors and their report is presented on page 7.

The accounting officer is responsible for the preparation of these annual financial statements in terms of Section 126(1) of the Municipal Finance Management Act and which is signed by him on behalf of the Municipality.

The financial statements set out on page 10 to 89 which have been prepared on the going concern basis, were approved by the accounting officer on 13 December 2013:

G. Ramathebane
Municipal Manager

Report of the Auditor General

To the Provincial Legislature of Matjhabeng Local Municipality

Report on the financial statements

The Auditor General of South Africa will insert his report here upon finalisation.

Auditor General of South Africa

13 December 2013

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Officer's Report

The accounting officer submits his report for the year ended 30 June 2013.

1. Review of activities

Main business and operations

The municipality is engaged in providing municipal services and maintaining the best interest of the local community, mainly in the Matjhabeng area, and operates principally in the Republic of South Africa.

The operating results and state of affairs of the municipality are fully set out in the attached financial statements and do not in our opinion require any further comment.

Net deficit of the municipality was R 398,260,168 (2012: deficit R 363,329,298).

2. Going concern

We draw attention to the fact that at 30 June 2013, the municipality had accumulated deficits of 5,392,563,345 and that the municipality's total liabilities exceed its assets by.

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The ability of the municipality to continue as a going concern is dependent on a number of factors. The most significant of these is that the accounting officer continue to procure funding for the ongoing operations for the municipality.

The entity still has the power to levy rates and taxes and will continue to receive funding from government as evident from the equitable share allocation in terms of Division of Revenue Act (Act 5 of 2012).

3. Subsequent events

The accounting officer is not aware of any matter or circumstance arising since the end of the financial year.

4. Accounting Officer's interest in contracts

None.

5. Accounting policies

The financial statements prepared in accordance with the effective Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations and directives issued by the Accounting Standards Board and in accordance with section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

6. Accounting Officer

The accounting officer of the municipality during the year and to the date of this report is as follows:

Name	Nationality
G. Ramathebane	South African

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Officer's Report

7. Corporate governance

General

The accounting officer is committed to business integrity, transparency and professionalism in all its activities. As part of this commitment, the accounting officer supports the highest standards of corporate governance and the ongoing development of best practice.

The municipality confirms and acknowledges its responsibility to total compliance with the Code of Corporate Practices and Conduct ("the Code") laid out in the King Report on Corporate Governance for South Africa 2002. The accounting officer discuss the responsibilities of management in this respect, at Board meetings and monitor the municipality's compliance with the code on a three monthly basis.

The salient features of the municipality's adoption of the Code is outlined below:

Council

The Council

- retains full control over the municipality, its plans and strategy;
- acknowledges its responsibilities as to strategy, compliance with internal policies, external laws and regulations, effective risk management and performance measurement, transparency and effective communication both internally and externally by the municipality;

Audit and risk committee

The Audit Committee was active for the financial year.

Internal audit

The municipality has an internal audit function.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1. Presentation of Financial Statements

The financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board as listed below:

These financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise. They are presented in South African Rand. The figures are rounded to the nearest rand.

A summary of the significant accounting policies, which have been consistently applied, are disclosed below.

These accounting policies are consistent with the previous period except for the changes set out in note 2 Standards and interpretations effective and adopted in the current year.

1.1 Significant judgements and sources of estimation uncertainty

In preparing the financial statements, management is required to make estimates and assumptions that affect the amounts represented in the financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the financial statements. Significant judgements include:

Trade receivables / Held to maturity investments and/or loans and receivables

The municipality assesses its trade receivables, held to maturity investments and loans and receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the surplus makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

Allowance for slow moving, damaged and obsolete stock

An allowance for stock to write stock down to the lower of cost or net realisable value. Management have made estimates of the selling price and direct cost to sell on certain inventory items. The write down is included in the operation surplus note.

Fair value estimation

The fair value of financial instruments traded in active markets (such as trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the municipality is the current bid price.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the municipality for similar financial instruments.

Impairment testing

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions. It is reasonably possible that the assumption may change which may then impact our estimations and may then require a material adjustment to the carrying value of goodwill and tangible assets.

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. In addition, goodwill is tested on an annual basis for impairment. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of goodwill and tangible assets are inherently uncertain and could materially change over time. They are significantly affected by a number of factors.

Provisions

Provisions were raised for future rehabilitation costs of landfill sites and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 17 - Provisions.

Matjhabeng Local Municipality
Financial Statements for the year ended 30 June 2013

Accounting Policies

1.1 Significant judgements and sources of estimation uncertainty (continued)

Useful lives of waste and water network and other assets

The municipality's management determines the estimated useful lives and related depreciation charges for the waste water and water networks. This estimate is based on industry norm. Management will increase the depreciation charge where useful lives are less than previously estimated useful lives.

Post retirement benefits

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post retirement obligations.

The municipality determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related medical aid and pension liability.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 19.

Effective interest rate

The municipality used the prime interest rate to discount future cash flows.

Allowance for doubtful debts

On debtors an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired.

1.2 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.2 Investment property (continued)

Cost model

Investment property is carried at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is provided to write down the cost, less estimated residual value by equal installments over the useful life of the property, which is as follows:

Item	Useful life
Property - land	Indefinite
Community Facilities	7 - 50 years
Halls	5 - 50 years
Stadiums	5 - 50 years
Swimming Pools	7 - 50 years

Investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

1.3 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.3 Property, plant and equipment (continued)

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

The residual value, and the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Average useful life
Land and Buildings	
• Land	Indefinite life
• Cemeteries	7 - 50 years
• Community assets	5 - 50 years
• Heritage assets	Indefinite life
• Road reserve furniture	30 years
• Operational facilities	7 - 30 years
• Solid waste	7 - 50 years
• Buildings	5 - 50 years
Infrastructure	
• Roads	10 - 80 years
• Electricity	20 - 50 years
• Sanitation	1 - 50 years
• Water	Indefinite - 50 years
Other property, plant and equipment	
• Bins and Containers	5 - 10 Years
• Motor Vehicles	3 - 7 Years
• Furniture and Fittings	7 - 10 Years
• Specialist Vehicles	10 - 15 Years
• Office Equipment	3 - 7 Years
• IT Equipment	15 Years
• Other Equipment	2 - 5 Years
• Specialised equipment	10 - 15 Years

Matjhabeng Local Municipality
Financial Statements for the year ended 30 June 2013

Accounting Policies

1.4 Site restoration and dismantling cost

The municipality has an obligation to dismantle, remove and restore items of property, plant and equipment. Such obligations are referred to as 'decommissioning, restoration and similar liabilities'. The cost of an item of property, plant and equipment includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an municipality incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

If the related asset is measured using the cost model:

- (a) subject to (b), changes in the liability are added to, or deducted from, the cost of the related asset in the current period;
- (b) if a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit; and
- (c) if the adjustment results in an addition to the cost of an asset, the municipality considers whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If it is such an indication, the asset is tested for impairment by estimating its recoverable amount or recoverable service amount, and any impairment loss is recognised in accordance with the accounting policy on impairment of cash-generating assets and/or impairment of non-cash-generating assets.

1.5 Intangible assets

An asset is identified as an intangible asset when it:

- is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, assets or liability; or
- arises from contractual rights or other legal rights, regardless whether those rights are transferable or separate from the municipality or from other rights and obligations.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Useful life
Computer software	3 years

1.6 Heritage assets

Assets are resources controlled by an municipality as a result of past events and from which future economic benefits or service potential are expected to flow to the municipality.

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.6 Heritage assets (continued)

Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

Subsequent measurement

After recognition as an asset, a class of heritage assets, whose fair value can be measured reliably, is carried at a revalued amount, being its fair value at the date of the revaluation less any subsequent impairment losses.

Transfers

Transfers from heritage assets are only made when the particular asset no longer meets the definition of a heritage asset.

Transfers to heritage assets are only made when the asset meets the definition of a heritage asset.

Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the heritage asset. Such difference is recognised in surplus or deficit when the heritage asset is derecognised.

1.7 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

A concessionary loan is a loan granted to or received by an entity on terms that are not market related.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Derecognition is the removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- It is settled at a future date.

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.7 Financial instruments (continued)

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability (or group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see the Standard of GRAP on Revenue from Exchange Transactions), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

A financial asset is:

- cash;
- a residual interest of another entity; or
- a contractual right to:
 - receive cash or another financial asset from another entity; or
 - exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

A financial liability is any liability that is a contractual obligation to:

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Loan commitment is a firm commitment to provide credit under pre-specified terms and conditions.

Loans payable are financial liabilities, other than short-term payables on normal credit terms.

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

A financial asset is past due when a counterparty has failed to make a payment when contractually due.

A residual interest is any contract that manifests an interest in the assets of an entity after deducting all of its liabilities. A residual interest includes contributions from owners, which may be shown as:

- equity instruments or similar forms of unitised capital;
- a formal designation of a transfer of resources (or a class of such transfers) by the parties to the transaction as forming part of an entity's net assets, either before the contribution occurs or at the time of the contribution; or
- a formal agreement, in relation to the contribution, establishing or increasing an existing financial interest in the net assets of an entity.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.7 Financial instruments (continued)

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Financial instruments at amortised cost are non-derivative financial assets or non-derivative financial liabilities that have fixed or determinable payments, excluding those instruments that:

- the entity designates at fair value at initial recognition; or
- are held for trading.

Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

Financial instruments at fair value comprise financial assets or financial liabilities that are:

- derivatives;
- combined instruments that are designated at fair value;
- instruments held for trading. A financial instrument is held for trading if:
 - it is acquired or incurred principally for the purpose of selling or repurchasing it in the near-term; or
 - on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking;
 - non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; and
 - financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Classification

The entity has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Consumer Debtors	Financial asset measured at amortised cost
Trade receivables	Financial asset measured at amortised cost
Other financial assets	Financial asset measured at fair value and amortised cost

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Trade payables	Financial liability measured at amortised cost
Other financial liability	Financial liability measured at fair value

Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument.

Initial measurement of financial assets and financial liabilities

The entity measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

The entity first assesses whether the substance of a concessionary loan is in fact a loan. On initial recognition, the entity analyses a concessionary loan into its component parts and accounts for each component separately. The entity accounts for that part of a concessionary loan that is:

- a social benefit in accordance with the Framework for the Preparation and Presentation of Financial Statements, where it is the issuer of the loan; or
- non-exchange revenue, in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers), where it is the recipient of the loan.

Accounting Policies

1.7 Financial instruments (continued)

Subsequent measurement of financial assets and financial liabilities

The entity measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at fair value.
- Financial instruments at amortised cost.
- Financial instruments at cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

Fair value measurement considerations

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, the entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal operating considerations. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Periodically, an entity calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on any available observable market data.

The fair value of a financial liability with a demand feature (e.g. a demand deposit) is not less than the amount payable on demand, discounted from the first date that the amount could be required to be paid.

Reclassification

The entity does not reclassify a financial instrument while it is issued or held unless it is:

- combined instrument that is required to be measured at fair value; or
- an investment in a residual interest that meets the requirements for reclassification.

Where the entity cannot reliably measure the fair value of an embedded derivative that has been separated from a host contract that is a financial instrument at a subsequent reporting date, it measures the combined instrument at fair value. This requires a reclassification of the instrument from amortised cost or cost to fair value.

If fair value can no longer be measured reliably for an investment in a residual interest measured at fair value, the entity reclassifies the investment from fair value to cost. The carrying amount at the date that fair value is no longer available becomes the cost.

If a reliable measure becomes available for an investment in a residual interest for which a measure was previously not available, and the instrument would have been required to be measured at fair value, the entity reclassifies the instrument from cost to fair value.

Gains and losses

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairment and uncollectibility of financial assets

The entity assess at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

Financial assets measured at amortised cost:

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.7 Financial instruments (continued)

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly OR through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly OR by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

Financial assets measured at cost:

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

Accounting Policies

1.7 Financial instruments (continued)

Derecognition

Financial assets

The entity derecognises financial assets using trade date accounting.

The entity derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the entity transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the entity, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity :
 - derecognise the asset; and
 - recognise separately any rights and obligations created or retained in the transfer.

The carrying amounts of the transferred asset are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. Newly created rights and obligations are measured at their fair values at that date. Any difference between the consideration received and the amounts recognised and derecognised is recognised in surplus or deficit in the period of the transfer.

If the entity transfers a financial asset in a transfer that qualifies for derecognition in its entirety and retains the right to service the financial asset for a fee, it recognise either a servicing asset or a servicing liability for that servicing contract. If the fee to be received is not expected to compensate the entity adequately for performing the servicing, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing, a servicing asset is recognised for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

If, as a result of a transfer, a financial asset is derecognised in its entirety but the transfer results in the entity obtaining a new financial asset or assuming a new financial liability, or a servicing liability, the entity recognise the new financial asset, financial liability or servicing liability at fair value.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received is recognised in surplus or deficit.

If the transferred asset is part of a larger financial asset and the part transferred qualifies for derecognition in its entirety, the previous carrying amount of the larger financial asset is allocated between the part that continues to be recognised and the part that is derecognised, based on the relative fair values of those parts, on the date of the transfer. For this purpose, a retained servicing asset is treated as a part that continues to be recognised. The difference between the carrying amount allocated to the part derecognised and the sum of the consideration received for the part derecognised is recognised in surplus or deficit.

If a transfer does not result in derecognition because the entity has retained substantially all the risks and rewards of ownership of the transferred asset, the entity continue to recognise the transferred asset in its entirety and recognise a financial liability for the consideration received. In subsequent periods, the entity recognises any revenue on the transferred asset and any expense incurred on the financial liability. Neither the asset, and the associated liability nor the revenue, and the associated expenses are offset.

Financial liabilities

The entity removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished — i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

An exchange between an existing borrower and lender of debt instruments with substantially different terms is accounted for as having extinguished the original financial liability and a new financial liability is recognised. Similarly, a substantial modification of the terms of an existing financial liability or a part of it is accounted for as having extinguished the original financial liability and having recognised a new financial liability.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.7 Financial instruments (continued)

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

Presentation

Interest relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

Dividends or similar distributions relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

Losses and gains relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

A financial asset and a financial liability are only offset and the net amount presented in the statement of financial position when the entity currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

In accounting for a transfer of a financial asset that does not qualify for derecognition, the entity does not offset the transferred asset and the associated liability.

1.8 Tax

VAT

The entity accounts for VAT on the cash basis. The entity is liable to account for VAT at the standard rate (14%) in terms of section 7 (1) (a) of the VAT Act in respect of the supply of goods or services, except where the supplies are specifically zero-rated in terms of section 11, exempted in terms of section 12 of the VAT Act or are scoped out for VAT purposes. The entity accounts for VAT on a monthly basis.

1.9 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

Accounting Policies

1.9 Leases (continued)

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.10 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.11 Impairment of cash-generating assets

Cash-generating assets are those assets held by the municipality with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit-orientated entity, it generates a commercial return.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets held with the primary objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Identification

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.11 Impairment of cash-generating assets (continued)

Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Cash-generating units

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the municipality determines the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash-generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash-generating unit are affected by internal transfer pricing, the municipality use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating:

- the future cash inflows used to determine the asset's or cash-generating unit's value in use; and
- the future cash outflows used to determine the value in use of any other assets or cash-generating units that are affected by the internal transfer pricing.

Cash-generating units are identified consistently from period to period for the same asset or types of assets, unless a change is justified.

The carrying amount of a cash-generating unit is determined on a basis consistent with the way the recoverable amount of the cash-generating unit is determined.

An impairment loss is recognised for a cash-generating unit if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment is allocated to reduce the carrying amount of the cash-generating assets of the unit on a pro rata basis, based on the carrying amount of each asset in the unit. These reductions in carrying amounts are treated as impairment losses on individual assets.

In allocating an impairment loss, the entity does not reduce the carrying amount of an asset below the highest of:

- its fair value less costs to sell (if determinable);
- its value in use (if determinable); and
- zero.

The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other cash-generating assets of the unit.

Where a non-cash-generating asset contributes to a cash-generating unit, a proportion of the carrying amount of that non-cash-generating asset is allocated to the carrying amount of the cash-generating unit prior to estimation of the recoverable amount of the cash-generating unit.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.11 Impairment of cash-generating assets (continued)

Reversal of impairment loss

The municipality assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

Redesignation

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur when there is clear evidence that such a redesignation is appropriate.

1.12 Impairment of non-cash-generating assets

Cash-generating assets are those assets held by the municipality with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit-orientated entity, it generates a commercial return.

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets held with the primary objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Matjhabeng Local Municipality
Financial Statements for the year ended 30 June 2013

Accounting Policies

1.12 Impairment of non-cash-generating assets (continued)

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Useful life is either:

- (a) the period of time over which an asset is expected to be used by the municipality; or
- (b) the number of production or similar units expected to be obtained from the asset by the municipality.

Recognition and measurement

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued non-cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the non-cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standards of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Reversal of an impairment loss

The municipality assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued non-cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.13 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

A qualifying insurance policy is an insurance policy issued by an insurer that is not a related party (as defined in the Standard of GRAP on Related Party Disclosures) of the reporting entity, if the proceeds of the policy can be used only to pay or fund employee benefits under a defined benefit plan and are not available to the reporting entity's own creditors (even in liquidation) and cannot be paid to the reporting entity, unless either:

- the proceeds represent surplus assets that are not needed for the policy to meet all the related employee benefit obligations; or
- the proceeds are returned to the reporting entity to reimburse it for employee benefits already paid.

Termination benefits are employee benefits payable as a result of either:

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.13 Employee benefits (continued)

- an entity's decision to terminate an employee's employment before the normal retirement date; or
- an employee's decision to accept voluntary redundancy in exchange for those benefits.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Vested employee benefits are employee benefits that are not conditional on future employment.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide post-employment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

A constructive obligation is an obligation that derives from an entity's actions where by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognise the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measure the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognise the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Accounting Policies

1.13 Employee benefits (continued)

Other post retirement obligations

The municipality provides post-retirement health care benefits, housing subsidies and gratuities upon retirement to some retirees.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations. The municipality also provides a gratuity and housing subsidy on retirement to certain employees. An annual charge to income is made to cover both these liabilities.

The amount recognised as a liability for other long-term employee benefits is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly.

The entity shall recognise the net total of the following amounts as expense or revenue, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement right recognised as an asset;
- actuarial gains and losses, which shall all be recognised immediately;
- past service cost, which shall all be recognised immediately; and
- the effect of any curtailments or settlements.

1.14 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating deficits.

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.14 Provisions and contingencies (continued)

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
 - the activity/operating unit or part of a activity/operating unit concerned;
 - the principal locations affected;
 - the location, function, and approximate number of employees who will be compensated for services being terminated;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 38.

1.15 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

An entity assesses the probability of each transaction on an individual basis when it occurs. Entities shall not assess the probability on an overall level based on the payment history of recipients of the service in general when the probability of revenue is assessed at initial recognition.

The full amount of revenue will be recognised at initial recognition. Assessing impairment is an event that takes place subsequently to initial recognition. Such impairment is an expense. Revenue is not reduced by this expense the probability test on initial recognition of exchange revenue; it should not be applied by analogy to other types of transactions.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.15 Revenue from exchange transactions (continued)

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined by the proportion that costs incurred to date bear to the total estimated costs of the transaction.

Services rendered include electricity, water, waste collection, sanitation and sewerage.

Interest and dividends

Revenue arising from the use by others of entity assets yielding interest and dividends is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Dividends, or their equivalents are recognised, in surplus or deficit, when the municipality's right to receive payment has been established.

1.16 Revenue from non-exchange transactions

Non-exchange transactions are defined as transactions where the entity receives value from another entity without directly giving approximately equal value in exchange.

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Rates, including collection charges and penalties interest

Revenue from rates, including collection charges and penalty interest, is recognised when:

- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the amount of the revenue can be measured reliably; and
- there has been compliance with the relevant legal requirements.

Changes to property values during a reporting period are valued by a suitably qualified valuator and adjustments are made to rates revenue, based on a time proportion basis. Adjustments to rates revenue already recognised are processed or additional rates revenue is recognised.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.16 Revenue from non-exchange transactions (continued)

Fines

Revenue from the issuing of fines is recognised when:

- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the amount of the revenue can be measured reliably.

The municipality has two types of fines: spot fines and summonses. There is uncertainty regarding the probability of the flow of economic benefits or service potential in respect of spot fines as these fines are usually not given directly to an offender. Further legal processes have to be undertaken before the spot fine is enforceable. In respect of summonses the public prosecutor can decide whether to waive the fine, reduce it or prosecute for non-payment by the offender. An estimate is made for the revenue amount collected from spot fines and summonses based on past experience of amounts collected. Where a reliable estimate cannot be made of revenue from summonses, the revenue from summonses is recognised when the public prosecutor pays over to the entity the cash actually collected on summonses issued.

Government grants

Government grants are recognised as revenue when:

- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality,
- the amount of the revenue can be measured reliably, and
- to the extent that there has been compliance with any restrictions associated with the grant.

The municipality assesses the degree of certainty attached to the flow of future economic benefits or service potential on the basis of the available evidence. Certain grants payable by one level of government to another are subject to the availability of funds. Revenue from these grants is only recognised when it is probable that the economic benefits or service potential associated with the transaction will flow to the entity. An announcement at the beginning of a financial year that grants may be available for qualifying entities in accordance with an agreed programme may not be sufficient evidence of the probability of the flow. Revenue is then only recognised once evidence of the probability of the flow becomes available.

Restrictions on government grants may result in such revenue being recognised on a time proportion basis. Where there is no restriction on the period, such revenue is recognised on receipt or when the Act becomes effective, whichever is earlier.

When government remit grants on a re-imbursement basis, revenue is recognised when the qualifying expense has been incurred and to the extent that any other restrictions have been complied with.

Other grants and donations

Other grants and donations are recognised as revenue when:

- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the amount of the revenue can be measured reliably; and
- to the extent that there has been compliance with any restrictions associated with the grant.

If goods in-kind are received without conditions attached, revenue is recognised immediately. If conditions are attached, a liability is recognised, which is reduced and revenue recognised as the conditions are satisfied.

1.17 Turnover

Turnover comprises of sales to customers and service rendered to customers. Turnover is stated at the invoice amount and is exclusive of value added taxation.

1.18 Investment income

Investment income is recognised on a time-proportion basis using the effective interest method.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.19 Borrowing costs

It is inappropriate to capitalise borrowing costs when, and only when, there is clear evidence that it is difficult to link the borrowing requirements of an entity directly to the nature of the expenditure to be funded i.e. capital or current.

Borrowing costs are recognised as an expense in the period in which they are incurred.

1.20 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.21 Unauthorised expenditure

Unauthorised expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No 56 of 2003).

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

Detailed disclosures were made in the notes to the financial statements as required by the Municipal Finance Management Act (Act No. 56 of 2003).

1.22 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

Detailed disclosures were made in the notes to the financial statements as required by the Municipal Finance Management Act (Act No. 56 of 2003).

1.23 Irregular expenditure

Irregular expenditure as defined in section 1 of the PFMA is expenditure other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including -

- (a) this Act; or
- (b) the State Tender Board Act, 1968 (Act No. 86 of 1968), or any regulations made in terms of the Act; or
- (c) any provincial legislation providing for procurement procedures in that provincial government.

Municipal Finance Management Act (Act No.56 of 2003) Circular No. 68 was issued on 10 May 2013 to provide clarity on the procedures to be followed when dealing with irregular expenditure. This guideline is to be effective for all irregular expenditure from 1 July 2013, but was used as a guideline for irregular expenditure in the current year.

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Accounting Policies

1.23 Irregular expenditure (continued)

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy and has not been condoned. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.24 Use of estimates

The preparation of financial statements in conformity with Standards of GRAP requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the municipality's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in the relevant sections of the financial statements. Although these estimates are based on management's best knowledge of current events and actions they may undertake in the future, actual results ultimately may differ from those estimates.

1.25 Presentation of currency

These financial statements are presented in South African Rand.

1.26 Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

1.27 Investments

Where the carrying amount of an investment is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the statement of financial performance.

1.28 Conditional grants and receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met, a liability is recognised.

1.29 Budget information

Municipality are typically subject to budgetary limits in the form of appropriations or budget authorisation (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on a cash basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 01/07/2012 to 30/06/2013.

The financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

Matjhabeng Local Municipality
Financial Statements for the year ended 30 June 2013

Accounting Policies

1.29 Budget information (continued)

The financial statements and the budget are not on the same basis of accounting therefore a reconciliation between the statement of financial performance and the budget have been included in the financial statements. Refer to note 6 & 39.

Comparative information is not required.

1.30 Related parties

The municipality operates in an economic sector currently dominated by entities directly or indirectly owned by the South African Government. As a consequence of the constitutional independence of the three spheres of government in South Africa, only entities within the national sphere of government are considered to be related parties.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

Financial Statements for the year ended 30 June 2013
Notes to the Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

2. New standards and interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the municipality has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• GRAP 23: Revenue from Non-exchange Transactions	01 April 2012	The standard will not have a material impact on the annual financial statements.
• GRAP 24: Presentation of Budget Information in the Financial Statements	01 April 2012	Additional disclosure is to be included in the financial statements. Please refer to the Statement of Comparison of Budget and Actual Amounts for disclosure.
• GRAP 103: Heritage Assets	01 April 2012	Due to the implementation of GRAP 103, certain heritage assets will be reclassified to other assets (primarily Property, Plant and Equipment) as these assets no longer fit the definition of heritage assets.
• GRAP 21: Impairment of non-cash-generating assets	01 April 2012	Significant impact due to valuation of assets.
• GRAP 26: Impairment of cash-generating assets	01 April 2012	Significant impact due to valuation of assets.
• GRAP 104: Financial Instruments	01 April 2012	There will be significant changes. This main change relates to the classification of the different categories of financial instruments and the changes in provision for impairment.

2.2 Standards and interpretations early adopted

The municipality has chosen to early adopt the following standards and interpretations:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• GRAP 25: Employee benefits	01 April 2013	The most significant impact of the standard relates to actuarial gains and losses that may now only be recognised in full in the year that it arises (no more options).

Matjhabeng Local Municipality
Financial Statements for the year ended 30 June 2013

Notes to the Financial Statements

2. New standards and interpretations (continued)

2.3 Standards and interpretations issued, but not yet effective

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2013 or later periods:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• GRAP 18: Segment Reporting	01 April 2013	It is unlikely that the standard will have a material impact on the annual financial statements.
• GRAP 20: Related parties	01 April 2013	It is unlikely that the standard will have a material impact on the annual financial statements.
• IGRAP 11: Consolidation – Special purpose entities	01 April 2014	It is unlikely that the standard will have a material impact on the annual financial statements.
• IGRAP 12: Jointly controlled entities – Non-monetary contributions by ventures	01 April 2014	It is unlikely that the standard will have a material impact on the annual financial statements.
• GRAP 6 (as revised 2010): Consolidated and Separate Financial Statements	01 April 2014	It is unlikely that the standard will have a material impact on the annual financial statements.
• GRAP 7 (as revised 2010): Investments in Associates	01 April 2014	It is unlikely that the standard will have a material impact on the annual financial statements.
• GRAP 8 (as revised 2010): Interests in Joint Ventures	01 April 2014	It is unlikely that the standard will have a material impact on the annual financial statements.
• GRAP 1 (as revised 2012): Presentation of Financial Statements	01 April 2013	It is unlikely that the standard will have a material impact on the annual financial statements.
• GRAP 3 (as revised 2012): Accounting Policies, Change in Accounting Estimates and Errors	01 April 2013	It is unlikely that the standard will have a material impact on the annual financial statements.
• GRAP 7 (as revised 2012): Investments in Associates	01 April 2013	It is unlikely that the standard will have a material impact on the annual financial statements.

2012

Financial assets at fair value

Fair value information:

Fair values are determined annually at statement of financial position date.

For financial assets recognised at fair value, disclosure is required of a fair value hierarchy which reflects the significance of the inputs used to make the measurements. The fair value hierarchy have the following levels:

Level 1 represents those assets which are measured using unadjusted quoted prices in active markets for identical assets.

Level 2 applies inputs other than quoted prices that are observable for the assets either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 applies inputs which are not based on observable market data.

Level 1

Shares in Senwes and Senwesbel	302,600	287,317
--------------------------------	---------	---------

Level 2

ABSA Fixed Deposits	612,680	10,606,359
RMB Asset Management (Guaranteed Investment Trust)	32,350,132	27,895,742
	32,962,812	38,502,101
	33,265,412	38,789,418

Investments pledged as collateral

Limited cession over ABSA investment account: 20-5944-0982	10,000,000	10,000,000
--	------------	------------

At year end above cession was utilised.

Renegotiated terms

None of the financial assets that are fully performing have been renegotiated in the last year.

5. Trade and other receivables

Deposits	9,850	9,850
Health Subsidies	85,714	85,715
Other Receivables	3,519,834	5,626,395
	3,615,398	5,721,960

Included in other receivables are irregular expenditure incurred during the year which will be recovered. Refer to note 44.

Included in other receivables are unspent conditional grants with favourable balances. Refer to note 16.

Matjhabeng Local Municipality

Financial Statements for the year ended 30 June 2013

Notes to the Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

7. Consumer receivables from exchange transactions (continued)

Credit quality of consumer debtors

The credit quality of consumer debtors that are neither past nor due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates.

None of the financial assets that are fully performing have been renegotiated in the last year.

The creation and release of allowance for impaired receivables have been included in operating expenses in the statement of financial performance (note 29). Amounts charged to the allowance account are generally written off when there is no expectation of recovering additional cash.

The maximum exposure to credit risk at the reporting date is the fair value of each class of loan mentioned above. The municipality does not hold any collateral as security.

8. Cash and cash equivalents

Cash and cash equivalents consist of:

Cash on hand	58,469	38,504
Bank balances	631,397	41,408,524
Short-term deposits	3,486,388	3,217,474
Bank overdraft	(6,187,309)	-
	(2,011,055)	44,664,502
Current assets	4,176,254	44,664,502
Current liabilities	(6,187,309)	-
	(2,011,055)	44,664,502

The total amount of undrawn facilities available for future operating activities and commitments:

Overdraft facility	10,000,000	10,000,000
Housing Guarantees facility	500,000	200,000
ACB Mag Tape Debit facility	2,000,000	1,500,000
AVAF facility	60,000	-
AVAF facility	67,000	-
Fleet card	60,000	60,000

Cash and cash equivalents pledged as collateral

Financial assets pledged as collateral for ABSA overdraft facilities:	-	900,000
Limited cession of R900,000 over ABSA call account: 50-6438-8780

Total other financial liabilities	18,537,335	
Current liabilities		
At amortised cost	18,537,335	19,275,605
The Municipality defaulted on the redemption of the following loans:		
DBSA Consolidated Loan	18,390,856	17,379,807
DBSA 08110/102	146,479	1,895,798
	18,537,335	19,275,605

The loans are from the Development Bank of South Africa and the full amount of R18,537,335 was in arrears as at 30 June 2013 (30 June 2012: R19,275,605)

The loans bear interest at between 10% and 12.5% per year. Arrear balances bear interest between 10% and 14.5%.

Figures in Rand	2013	2012
12. Finance lease obligation		
Minimum lease payments due		
- within one year	221,142	6,685,118
- in second to fifth year inclusive	-	1,267,877
	221,142	7,952,995
less: future finance charges	(11,017)	(879,727)
Present value of minimum lease payments	210,125	7,073,268
Present value of minimum lease payments due		
- within one year	210,125	5,878,219
- in second to fifth year inclusive	-	1,195,049
	210,125	7,073,268
Non-current liabilities	-	1,195,048
Current liabilities	210,125	5,878,219
	210,125	7,073,267

It is municipality policy to lease certain equipment under finance leases.

The average lease term was 5 years and the average effective borrowing rate was 13% (2012: 13%).

Interest rates are linked to prime at the contract date. Most of the leases escalate at 10% p.a and no arrangements have been entered into for contingent rent.

The municipality's obligations under finance leases are secured by the lessor's charge over the leased assets. Refer note 9.

13. Trade and other payables

Trade payables	957,829,541	808,830,080
Payments received in advance	37,063,833	30,840,052
Accrued leave pay	47,880,220	49,518,014
Accrued bonus	7,578,514	7,114,675
Straightlining of operating leases	-	(53,345)
Deposits received	32,314	32,303
Other payables	19,600,373	16,550,812
	1,069,984,795	912,832,591

14. VAT payable

Tax refunds payables	7,013,476	29,175,051
----------------------	-----------	------------

VAT is payable to SARS on the receipts/payments basis. Only when payment is received from debtors is output VAT paid to the South African Revenue Services.

Only when payment is made to creditors, input VAT is claimed from the South African Revenue Services.

Figures in Rand	2013	2012
-----------------	------	------

15. Consumer deposits

Water and electricity	29,396,890	27,936,787
-----------------------	------------	------------

Guarantees

Guarantees held in lieu of Electricity and Water Deposits	4,406,506	4,245,706

See note 23 for reconciliation of grants from National/Provincial Government.

17. Provisions

Reconciliation of provisions - 2013

	Opening Balance	Change in estimate	Total
Environmental rehabilitation	5,100,000	1,450,000	6,550,000

Reconciliation of provisions - 2012

	Opening Balance	Change in estimate	Total
Environmental rehabilitation	4,850,000	250,000	5,100,000

Figures in Rand	2013	2012
-----------------	------	------

17. Provisions (continued)

Rehabilitation of landfill sites

The provision for rehabilitation of landfill sites relates to the legal obligation to rehabilitate landfill sites to a condition whereby it complies to the permit requirements issued in terms of the Mineral and Petroleum Resources Development Act, (Act, 28 of 2002). The provision approximates the discounted expected future cash flows using reasonable estimation techniques.

The discount rate used for all the landfill sites is based on a CPA rate that matures as close as possible to the future date of the rehabilitation, the rate is 1.50% for the circumstances of the entity.

Landfills consist of:

Welkom (20 years)

Odendaalsrus (12 years)

Allanridge (15 years)

Hennenman (Phomolong) (15 years)

The final restoration of landfill sites are expected to be over a period of 20 years, being estimated useful lives and landfill sites. These liabilities are uncertain and the amounts disclosed are the possible outflow amounts.

	27,936,787	29,175,051	57,111,838

19. Employee benefit obligations

Defined benefit plan

The defined benefit plan consists of a post retirement medical aid plan.

Post retirement medical aid plan

Various councillors and employees belong to various post- retirement healthcare benefits schemes.

The liability of the schemes was valued as at 30 June 2010, 30 June 2011, 30 June 2012 and 30 June 2013.

The municipality makes monthly contributions for health care arrangements to the following Medical Aid Schemes:

LA Healt Medical Scheme
Bonitas Medical Scheme
Hosmed Medical Scheme
Samwumed Medical Scheme
KeyHealth Medical Scheme

The members of the Post-employment Health Care Benefit Plan are made up as follows:

In-service members (Employees) 1,360 (2012: 1,400)
Continuation Members (Retirees, widowers and orphans): 184 (2012: 180)

The amounts recognised in the statement of financial position are as follows:

Carrying value		
Present value of the defined benefit obligation-wholly unfunded	(282,485,000)	(224,650,000)

Disclosure in terms of GRAP 25:

The results as at the previous valuation date are unaffected by the move from the IAS 19 accounting standard (used in the previous valuation) to GRAP 25.

Defined benefit obligation	(282,485,000)	(224,650,000)
Experience adjustments on plan liabilities	-	(1,843,400)

Figures in Rand	2013	2012
19. Employee benefit obligations (continued)		
Changes in the present value of the defined benefit obligation are as follows:		
Opening balance	(224,650,000)	(189,827,000)
Net movement	(57,836,000)	(34,823,000)
Closing balance	(282,486,000)	(224,650,000)
Net expense recognised in the statement of financial performance		
Service cost	(10,465,000)	(8,432,000)
Interest cost	(20,409,000)	(17,385,000)
Actuarial (gains) losses	(33,351,000)	(14,808,000)
Expected Benefits paid	6,389,000	5,802,000
Total movement	(57,836,000)	(34,823,000)

Figures in Rand	2013	2012
19. Employee benefit obligations (continued)		
Key assumptions used		
Assumptions used at the reporting date:		
Discount rates used	9.10 %	9.00 %
Healthcare cost Inflation	8.30 %	7.50 %
Net discount rate	0.74 %	1.40 %
Maximum contribution increase	6.54 %	6.50 %
Continuation percentage (employees)	90.00 %	90.00 %
Continuation percentage (widows)	90.00 %	90.00 %

Rationale for economic assumptions:

Discount rate

GRAP 25 requires that the discount rate used in the valuation be determined by reference to market yields on government bonds as at the balance sheet date. In line with GRAP 25 and current market practice, government bond yields are therefore used when setting our best-estimate discount rate assumption.

The currency and term of the government bonds shall be consistent with the currency and estimated term of the post-employment benefit obligations.

The estimated discount rate was set equal to the yield on the BEASSA zero-coupon yield curve with a term of 18 years, the expected duration of the liability based on the current membership data, as at 30 June 2013.

Healthcare cost inflation

In the past, healthcare cost inflation has typically exceeded the Consumer Price Index ("CPI") by a margin of 1% to 2%.

The CPI inflation assumption used in the previous valuations was set as the difference between the R186 and R197 bonds, adjusted by an inflation risk premium of 0.35%. However, the Bond Exchange of South Africa recently fitted a real yield curve on index-linked bonds. This real yield curve is published together with the BEASSA yield curve on zero-coupon government bond yields, which is a nominal yield curve.

The inflation assumption methodology has been updated to reflect the use of the real and nominal yield curves to determine the inflation assumption as this provides more accurate information on the outlook on inflation at specific durations. Therefore, the best estimate inflation assumption is calculated as the difference between the nominal and real yield curves at the point corresponding to the duration of the liability, including a 0.5% inflation risk premium adjustment to make appropriate allowance for the current economic environment. A margin of 2% was added to this value to determine the healthcare cost inflation assumption.

The CPI inflation assumption using this methodology is 6.30% as at 30 June 2013. Thus, the healthcare cost inflation has been set as 8.30% at the valuation date, after allowing for a margin of 2% over CPI inflation.

Figures in Rand	2013	2012
-----------------	------	------

19. Employee benefit obligations (continued)

Other assumptions and disclosures

Net discount rate

The relationship between the gross discount rate and healthcare cost inflation rate is more important than the individual values. The net discount rate is also a highly significant assumption in the respective valuations.

The future medical benefits are projected in line with the healthcare cost inflation rate and discounted at the gross discount rate. This is equivalent to discounting the benefits at their current level at the net discount rate.

The net discount rate therefore depends on the relationship between the gross discount rate and the healthcare cost inflation rate respectively. Using the gross discount and healthcare cost inflation rates as shown above, the resulting net discount rate is 0.74% (calculated as $(1 + \text{discount rate}) / (1 + \text{healthcare cost inflation rate}) - 1$) for the 30 June 2013 valuation

Other assumptions and disclosures

Expected retirement age (Males & Females) - 63 years (2012: 63 years)

Spouse and principal member age difference- Male 3 years older than female (2012: Male 3 years older than female)

Assumed healthcare cost trends rates have a significant effect on the amounts recognised in surplus or deficit. A one percentage point change in assumed healthcare cost trends rates would have the following effects:

	One percentage point increase	One percentage point decrease
Defined benefit obligation	(339,503,000)	(237,766,000)
Service Cost	(16,810,000)	(10,501,000)
Interest Cost	(31,342,000)	(21,803,000)

Expected contributions to post-employment benefit plans for the year ending 30 June 2013 would be approximately R6,759,000 (2012: R6,759,000).

Amounts for the current and previous two years are as follows:

	2013	2012	2011
Defined benefit obligation	282,485,000	224,650,000	189,827,000

Defined contribution plan

All councillors and employees belong to defined retirement plans administered by various Pension, Provident and Annuity Funds. As these are multi-employer funds, sufficient information is not available to enable the municipality to account for the plan(s) as a defined benefit plan(s). These amounts are accounted for as defined contribution plans.

The municipality is under no obligation to cover any unfunded benefits.

The amount recognised as an expense for defined contribution plans is	38,448,608	36,603,192
---	------------	------------

Figures in Rand	2013	2012
20. Revenue

Figures in Rand	2013	2012
38. Contingencies		
Housing Guarantees	-	182,315
MTM SP Guarantees facility	-	20,000
<p>The following cases against the Municipality have been recorded as a contingent liability as there is uncertainty as to the outcome of the cases. The Municipality is defending the cases. The potential legal costs have not been included in the claims against the Municipality.</p>		
Contingencies		
Odyssey Holdings versus Matjhabeng Local Municipality. Odyssey Holdings alleged that it was appointed in terms of Tender 22/2002 for the construction of Stormwater drainage in Kwutlwanoong. Odyssey Holdings alleged that the tender did not reflect the true consensus and common intention between the parties (municipality and the contractor).	-	1,383,512
Mr. C.G. Jacobs versus Matjhabeng Local Municipality. Mr. C.G. Jacobs indicated in 2003 of his intention to resign from the Municipality at the retirement age of 60 (sixty). Mr Jacobs was allegedly advised to reserve his rights in the matter as there was a strong indication that the rules of the Free State Pension Fund would change increasing the retirement age up to 65 (sixty five) years. Although Mr. Jacobs wrote to Council informing it that he reserves his right not to retire pending the outcome of the decision of the Free State Pension Fund, he (Mr. Jacobs) filled out the application forms for his pension funds to be released which subsequently occurred. Council informed him on the 1st of October 2003 to vacate his office. Subsequently he referred his matter to the Bargaining Council. The Municipality lost its arguments at arbitration.	1,881,172	1,881,172
V&V Consulting Engineers versus Matjhabeng Local Municipality. Summons issued against the municipality, wherein the municipality was sued for failure to pay V&V Consulting Engineers for services rendered.	2,049,969	856,695
Mr. J.P. Wentzel versus Matjhabeng Local Municipality. Mr. J.P. Wentzel alleged that on or around 23 September 2008 a fire broke out within the Municipality's farm and spread to his farm. As a result thereof he suffered damages.	1,740,349	1,740,349
Koth Properties versus Matjhabeng Local Municipality. Appointed to prepare general valuations. The agreement was terminated by the municipality. Koth Properties issued a combined summons against the municipality for breach of contract.	14,400,000	14,400,000
State versus Matjhabeng Local Municipality. Following municipality's continued negligence to properly maintained numerous municipal sewer systems together with numerous complains lodged against the municipality regarding the problem herein a directive in terms of Section 53 (1) of the National Water Act, Act No 36 of 1998 was issued against the municipality for non-compliance in terms of the aforementioned Act. With the municipality not complying with the directive issued, a criminal case was instituted against the municipality, employees and former employees.	-	-
Fujitsu Services (Pty) Ltd versus Matjhabeng Local Municipality. The municipality was issued with a Combined Summons from Fujitsu Services (Pty) Ltd. Alleged that the municipality failed to make payments. Trial date has been applied and same is expected to be 2014.	7,051,943	7,051,941

Figures in Rand	2013	2012
38. Contingencies (continued)		
Oardweed Investments CC versus Matjhabeng Municipality	-	-
The municipality was issued with Notice of Motion from Oardweed Investments CC for an order as follows:		
(i) That the Respondent (Municipality) be ordered to, within 30 days of the date of this order, cause a supplementary valuation to be made in respect of the fixed property known as Erf 1, Rheederpark, as is provided for in section 78 of Local Government: Municipal Property Rates Act, 2004.		
(ii) That the municipality be ordered to disclose to Oardweed, simultaneously with the disclosure of the result of the supplementary valuation, whether the new valuation of the property, if any, has been made in terms of the provisions of section 78 (1) (d) (e) and (f) of the Local Government: Municipal Property Rates Act, 2004.		
(iii) That Oardweed be ordered to pay all fees that may be payable in respect of the supplementary valuation referred to in paragraph 1 above.		
MMS Collections versus Matjhabeng Local Municipality.	2,870,649	2,870,649
The municipality was issued a Letter of Demand, claiming payment for an amount alleged to be agreed between the parties involved. The municipality has since instructed its attorneys to settle the matter out of court with Plaintiff. Municipality settlement was not accepted.		
Ramabulana Investment Services versus Matjhabeng Local Municipality.	1,821,367	1,821,367
The municipality was issued with a combined summons, claiming payment for services rendered.		
R Pretorius versus Matjhabeng Local Municipality.	164,767	164,767
On 24 January 2012 the municipality was served summons by the plaintiff claiming payment on the basis of fraudulent activities committed.		
Tanker Project Solutions CC vs Matjhabeng Local Municipality.	3,971,025	3,971,025
On the 30th March 2012 municipality was issued with combined summons claiming payment. The plaintiff alleged that he entered into a written agreement wherein he would act as consultant for the municipality in respect of the planning, design, supervision of infrastructure projects, development and implementation of technical assistance projects in terms of tender Notice 29/2009.		
Mr. B.A. Murray versus Matjhabeng Local Municipality.	46,250	46,250
On the 30th April 2012 municipality was issued with summons claiming payment. The plaintiff in the matter alleged that a collision occurred between a municipal vehicle driven by certain Mr Khomotsoana and the plaintiff's vehicle.		
Sonja Wessels versus Matjhabeng Local Municipality.	783,397	-
The Plaintiff herein instituted a civil proceeding against the Municipality for pain and suffering as result of an accident that occurred on 1 January 2011 at Valley Drive South, Virginia. Plaintiff alleges that on the day in question while driving on the aforementioned road, the motor cycle driven by one S Heydenreich the Motorcycle hit a pothole in the said road, causing the aforementioned driver to lose control over the motorcycle which resulted in the motorcycle leaving the road and overturning. Memo requiring clarity was send to the line manager on receipt of unfavourable respond matter was been handed over to Maree & Gouws Attorneys to defend claim on behalf of the municipality and the Insurance have taken-over the matter and is now being handled by Honey Attorneys.

38. Contingencies (continued)		
<p>Jan Bastian Reynders.</p> <p>The Plaintiff alleges that on or about 2nd August 2011 while travelling with his vehicle at Power road Virginia he approached a roadblock wherein he was stopped by Municipal traffic officer acting on their capacity as municipal employees. Traffic Officer become aggressive and demanded him to hand over his vehicle alleging that the vehicle is not road worthy as no front plate was displayed. The plaintiff alleges that in seizing the vehicle the defendant's employees had no reasonable cause to do so, as result of the above a claim in sum of R 300,000.00 for damages incurred. Memo requiring clarity was send to the line manager on receipt of unfavourable respond matter was been handed over to Maree & Gouws Attorneys to defend claim on behalf of the municipality and the Insurance have taken-over the matter and is now being handled by Honey Attorneys.</p>	300,000	-
<p>Prudence Dieketseng Nhlapo.</p> <p>On 11th January 2012 the Municipality was served with Ordinary Summons, wherein Plaintiff is instituting civil dispute arising from motor collision. As a result she instated a civil claim against the municipality for payment of R55 711, 98 (fifty five thousand, seven hundred and eleven rand and ninety eight cents). The matter have been lodged with the insurance.</p>	55,712	-
<p>Northern Spark Trading.</p> <p>On the 23rd July 2012 the municipality was served with a Warrant of Execution in respect of civil claim arising out of public liability claim. The judgement was rescinded and Messrs Maree Gouws was instructed by the Insurance to proceed in handling the matter further and the matter is on 13th June 2013.</p>	84,516	-
<p>Miss Byleveldt.</p> <p>Plaintiff alleges that during September 2011 she was driving at Fern Street, Virginia and an accident occurred as a result of pothole. As a result he suffered damages to the amount of R257 386, 60. The insurance have since appointed Messrs Honey Attorneys to handle the matter.</p>	257,387	-
<p>Vukuzimele Development Consultants CC t/a Vuka Academy.</p> <p>On the 27th December 2012 the Municipality was served with Combined Summons instituting a claim in sum of R195, 800.00 (One hundred and ninety five thousand, eight hundred rand) for an education for disabled people for 2011 Local Government Election. The matter herein was forwarded to erstwhile Acting Municipal Manager (now Senior Manager: LED) for his urgent attention. In preparation of Plea it has been established that the service provider (Plaintiff) indeed gave the municipality services and the municipality provided the voters with transport as well as the venue. Negotiations are taking place between the parties.</p>	195,800	-
<p>Ordinary Summons X83: Fanie Stephen Salean 82 others versus Matjhabeng Local Municipality</p> <p>The Plaintiffs in the matter herein alleges that they are entitled to certain amount of payment for work performed on Saturdays and Sundays since 2004. They further allege that notwithstanding their demands the municipality refuses and/or neglects to pay such services. A round table meeting has been arranged with respective departments on a way forward and in an attempt to establish the defence and also to discuss possibility of appointment of a legal representative , Messrs Maree Gouws was appointed. Notice of Intention to Defend was filed and in preparation of Plea.</p>	-	-

38. Contingencies (continued)		
Goldfields Tracing CC versus Matjhabeng Local Municipality	-	-
During 2006 Goldfields Tracing CC was appointed as one of the four debt collectors selected by the municipality and following their appointments the difficulty arose when the debt collectors claimed commission on all amounts paid by the debtors directly without providing the necessary proof that the debt collector was the effective cause of the payment. Matjhabeng Local Municipality instituted action against Goldfields Tracing CC in that it was the only debt collector that failed to produce to the municipality all payments made to and on behalf of the municipality through its offices and as a result the judgment was granted in favour of the municipality by the Free State High Court. Messrs Maree Gouws Attorneys were appointed to act on behalf of the municipality. There have an exchange of Draft Forensic Report from Open Water Forensics and believe that it will highly unlikely that Messrs Steyn Attorney will proceed with legal action against the Municipality on behalf of Goldfields Tracing.		
Kanono Jacobs Lento.	157,679	-
On 1st February 2013 the Municipality was served with Combined Summons, wherein Plaintiff is instituting civil claim as a result of electric shock. The matter has since being referred to Council's insurance.		
JJ Human versus Matjhabeng Municipality.	19,000	-
During February 2013 Legal Services received correspondence from Mr JJ Human. In brief Mr Human states that he was appointed as an Audit Committee Member for the municipality. He further indicated that subsequent to his appointment he attended several meetings as scheduled. He was paid R11 855,00 for all the sittings as well as travelling costs though same was not paid timeously as there are amounts still outstanding. The above an item was prepared for Council deliberation on the matter and same was withdrawn no reasons furnished. On the 29th April 2013 Mr. JJ Human issued summons against the municipality for payment of R19 000, 00 and Messrs Maree Gouws have since being appointed to represent the municipality.		
Gain Industries CC versus Matjhabeng Municipality.	360,628	-
On the 23rd April 2013 Municipality was served with Summons by the abovementioned Plaintiff. Plaintiff alleges that he rendered professional services to the municipality during 2012 on the municipality's special request and instance and the services rendered amounts to R 360 628,15. Municipality has since appointed Messrs Maree Gouws Attorneys to represents the municipality whilst gathering information from relevant department.		
Steven Heydenreich versus Matjhabeng Municipality.	892,936	-
On 18 September 2012 the Municipality was served with a combined summons instituting claim in an amount of R 892 936.30 he suffered as result of an accident which occurred on the 1 January 2011 within the district of the Municipality, were in the Plaintiff drove into a pothole thus losing control of the motorcycle he was driving at the time and result in an accident. The claim herein been a public liability claim was referred to our Budget Control section to enable same to lodge the claim with the Municipal Insurer.		
Sipho Mnisi versus Matjhabeng Municipality.	45,640	-
On the 2nd May 2013 Municipality was served with Combined Summons from Sipho Mnisi. The plaintiff alleges that on the 4th May 2010 an incident occurred in Virginia, Leratong Street wherein the plaintiff's vehicle bumped into a pothole which resulted in defendant's vehicle damaged beyond economical repairs. The matter was been referred to municipal current Insurer and the latter repudiated the claim. the matter herein was thereafter referred to the previous insurance and in parallel appointed Messrs Maree Gouws to handle the matter as the dies was about to expire.		

Figures in Rand	2013	2012
38. Contingencies (continued)		
Universal Pulse Trading 355 (Pty) Ltd versus Matjhabeng Municipality. On the 14th May 2008 the then Municipal Manager Mr. TH Pietersen appointed the service provider Universal Pulse for treatment of waste water in all municipal sewers. However it was later detected that the appointment of Universal Pulse and contract herein was in contravention with Municipal Finance Management Act as firstly the contractor was not appointed through supply chain process and secondly the terms agreed upon in their contract exceeded the required three year period. The service provider herein had already carried on with work and submitted and invoice to the amount of R 1 114 412.70 for work done.	1,114,413	-
Viljoen versus Matjhabeng Local Municipality. Plaintiff issued summons against Matjhabeng Local Municipality for unlawful arrest and damages.	150,000	150,000
LGW Contractors versus Matjhabeng Local Municipality. Summons issued against the municipality for payment for alleged standing time. Since the matter was redundant an application for Absolution from the Instance was launched and granted in favour of the municipality on the 28th May 2013.	-	1,847,958
Tall Tree versus Matjhabeng Local Municipality. During 2002/03 the Municipality arranged for a Lekgotla at Qwa-Qwa. Tall Tree was appointed as a facilitator. It is alleged that the Company failed to submit its quotation as requested and also failed to produce and/or deliver in accordance with its appointment. Tall Tree subsequently issued summons for payment. The municipality does not accept offer of Tall Tree being R400 000 and that each party to pay its own legal costs. Consultation was arranged and the matter was settled out of court.	-	534,318
Oppenheimer Golf Course versus Matjhabeng Local Municipality. The municipality was served with Combined Summons for damage suffered as a result of an overflowing of Witpan Sewer Plant which resulted to the alleged damage of the golf course. Full and final settlement.	-	8,250,000
Big Bravo Construction CC versus Matjhabeng Local Municipality. The municipality was issued with a summons claiming payment. The Plaintiff allege that it rendered services to the municipality at its special instance and request during 2008 under project number 35/2006. The matter has since been referred to Finger Attorneys and Plaintiff has abandoned the claim.	-	65,000
	40,414,599	47,035,003

Wage curve agreement

Employee costs are subject to a wage curve agreement. The impact of this agreement is still to be determined.

Councillors Unemployment Insurance Fund contributions

Circular 1/2012 dated 26 January 2012 states that municipalities that have deducted UIF contributions from councillors after 1 April 2002 will have to take the necessary steps for the refund of such amounts from the Fund. The municipality have not yet submitted their claim to the Fund based on the following reasons:

- The information from 2002 to 2005 has not yet been collated.
- The municipality is awaiting the format in which the Fund requires the information to be summarized and then a payday report will have to be created in order to pull the information from the system.
- It is uncertain when the proposed format will be communicated.
- Councillors who resigned needs to be located.
- Family members of councillors who passed away needs to be located.

After the claim have been completed and submitted to the Fund, the refund will depend on the audit to be performed by the Fund on the claim and supporting information that was submitted to the Fund

Figures in Rand	2013	2012
-----------------	------	------

38. Contingencies (continued)

Based on the uncertainty of the matter as described above, the matter is disclosed as a contingency:

Contingent Asset - the receipt of the contributions from the Fund. The existence of the asset existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality.

Contingent Liability - the repayments of contributions deducted and subsequently recovered from the Fund. The existence of the liability will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality.

Contingent assets

Remuneration of council members:

The municipality did not remunerate its political office bearers and members of its political structures within the framework of the Public Office Bearers Act, 1998 (Act No. 20 of 1998) due to difference of opinion of the grading of the municipality. In terms of section 167(2) of the MFMA, the municipality must recover these overpayments.

These amounts have not been accounted for as a receivable at year-end as there is currently uncertainty surrounding the outcome of the dispute. The grading of the municipality will be finalised once a conclusion is reached based on the meeting to be held between the municipality, SALGA and CoGTA.

The above-mentioned amounts that have been overpaid is included in the note for irregular expenditure (note 43).

Supply of bulk electricity - Eskom

The validity of the electricity supply agreement between the municipality and Eskom, the billing system used, tariffs applied and the charging of compound interest charged since 2000 are disputed. Resolution of this dispute may result in recovery / adjustment of amounts paid / billed.

Supply of bulk water - Sedibeng

Charges for the supply of water and arrear interest by Sedibeng Water are disputed by the municipality. Resolution of this dispute may result in recovery / adjustment of amounts paid / billed.

40. Risk management

Capital risk management

This note presents information about the municipality's exposure to each of the financial risks below and the entity's objectives, policies and processes for measuring and managing financial risks. Further quantitative disclosures are included throughout the Annual Financial Statements.

The Council has overall responsibility for the establishment and oversight of the municipality's risk management framework.

The municipality's objectives when managing capital are to safeguard the municipality's ability to continue as a going concern in order to provide returns for member and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The municipality monitors and manages the financial risks relating to the operations of the municipality through internal risk reports which analyse exposures by degree and magnitude of risks. The municipality has exposure to the following financial risks from its use of financial instruments:

- credit risk
- liquidity risk; and
- market risk (including interest rate risk and price risk).

The municipality seeks to minimise the effects of these risks in accordance with the municipality's policies approved by the Council. The policies provide written principles on foreign exchange risk, interest rate risk, credit risk and in the investment of excess liquidity.

The capital structure of the municipality consists of debt, which includes the borrowings disclosed in notes 12, 11, 8, and equity as disclosed in the statement of financial position.

There are no externally imposed capital requirements.

There have been no changes to what the municipality manages as capital, the strategy for capital maintenance or externally imposed capital requirements from the previous year.

The gearing ratio at 2013 and 2012 respectively were as follows:

Total borrowings			
Finance lease obligation	12	210,125	7,073,267
Other financial liabilities	11	18,537,335	19,275,605
		18,747,460	26,348,872
Less: Cash and cash equivalents	8	(2,011,055)	44,664,502
Net debt		20,758,515	(18,315,630)
Total equity		5,392,563,345	4,757,708,371
Total capital		5,413,321,860	4,739,392,741
Gearing Ratio %		0%	1%

Financial risk management

The municipality's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The municipality's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance. Risk management is carried out by a central treasury department (entity treasury) under policies approved by the accounting officer. The accounting officer provides written principles for overall risk management.

Figures in Rand	2013	2012
-----------------	------	------

40. Risk management (continued)

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, municipality treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

The table below analyses the municipality's financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

At 30 June 2013	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Borrowings	18,537,335	-	-	-
Financial lease obligation	210,125	-	-	-
Trade and other payables	1,069,987,789	-	-	-
Consumer deposits	29,396,890	-	-	-
VAT Payable	7,013,476	-	-	-
Bank Overdraft	6,187,309	-	-	-
At 30 June 2012	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Borrowings	19,275,605	-	-	-
Finance lease obligation	5,878,219	1,195,049	-	-
Trade and other payables	912,832,591	-	-	-
Consumer deposits	27,936,787	-	-	-
VAT Payable	29,175,051	-	-	-

Interest rate risk

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at fixed rates expose the municipality to fair value interest rate risk. During 2013 and 2012, the municipality's borrowings at variable rate were denominated in the Rand.

Figures in Rand

2013

2012

40. Risk management (continued)

Price risk

The municipality is exposed to equity securities price risk because of investments held by the municipality and classified on the consolidated statement of financial position either as available-for-sale or at fair value through surplus or deficit. The municipality is not exposed to commodity price risk. To manage its price risk arising from investments in equity securities, the municipality diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the municipality.

Foreign Currency Risk

The entity does not enter into significant foreign currency transactions and has had very limited exposure to foreign currency risk.

Interest Rate Risk

Interest rate risk is defined as the risk that the fair value or future cash flows associated with a financial instrument will fluctuate in amount as a result of market interest changes. The entity's policy is to minimise interest rate cash flow risk exposures on long-term financing. Longer term borrowings are therefore usually at fixed rates. The entity's exposures to interest rates on financial assets and financial liabilities are detailed below:

At year-end, financial instruments exposed to interest rate risk were as follows:

- Call, notice and fixed deposits
- Development Bank of South Africa loan

The entity's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the economic entity to cash flow interest rate risk. Borrowings issued at fixed rates expose the entity to fair value interest rate risk. Entity policy is to make as far as possible use of fixed rate instruments. During 2013 and 2012, the economic entity's borrowings at variable rate were denominated in the Rand.

41. Going concern

The following principal conditions could indicate that there is a material uncertainty which may cast significant doubt on the municipality's ability to continue as a going concern:

- 1) The total current liabilities, including unspent conditional grants (Note 16), exceeded the total current assets, including cash and cash equivalents (Note 8) and other financial assets (Note 4) by R82,871,143 (2012: R82,871,143). The municipality does not have sufficient funds available to cover short term debt.
- 2) The net deficit of the municipality was R741,747,755 (2012: R2,340,290,632).
- 3) There was a net decrease in cash and cash equivalents (Note 8) of R46,675,557 for the current financial year.
- 4) The municipality experienced difficulty in collecting consumer debtors. Consumer debt before impairment amounted to R1,901,856,016 at 30 June 2013 (2012: R1,562,851,645).
- 5) The municipality experienced problems in billing all consumers correctly and timeously.

The municipality is committed to improving operational efficiencies and is in the process of implementing procedures to improve billing accuracy, debt collection and to develop skills in the finance department.

Although certain going concern ratios may appear unfavourable, the entity still has the power to levy rates and taxes and it will continue to receive funding from government as evident from the equitable share allocation in terms of the Division of Revenue (Act 5 of 2012).

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

Figures in Rand	2013	2012
-----------------	------	------

41. Going concern (continued)

The ability of the municipality to continue as a going concern is dependent on a number of factors. The most significant of these is that the accounting officer continue to procure funding for the ongoing operations for the municipality as well as the compliance with section 71 of the MFMA in order to secure future funding from the Government to cover expenses and meet obligations.

42. Unauthorised expenditure

Opening balance	2,534,989,019	1,459,230,422
Unauthorised expenditure current year - operating expenses	719,253,752	1,035,382,671
Unauthorised expenditure current year - capital expenses	110,840,600	40,375,926
Unauthorised expenditure current year - condoned	(120,194,450)	-
	3,244,888,921	2,534,989,019

The unauthorised expenditure in 2013 and 2012 relates to expenditure incurred that was not budgeted for those specific financial years per department vote.

The unauthorised expenditure are not recoverable and no criminal or disciplinary steps have been taken as a result of such unauthorised expenses.

43. Fruitless and wasteful expenditure

Opening balance	157,779,893	81,388,100
Fruitless and wasteful expenditure current year	23,998,087	76,391,793
	181,777,980	157,779,893

These expenditure includes interest paid for late payment to suppliers and payments toward unfulfilled contracted services.

The fruitless and wasteful expenditure are not recoverable, no criminal or disciplinary steps were taken as a result of fruitless and wasteful expenditures and all material losses as a result of the expenses were written off in the year incurred.

Interest charged by Sedibeng identified in 2013 is not included as fruitless and wasteful expenditure pending resolution of a dispute with regards to charges for bulk water and interest. Refer to note 38 (Contingencies).

44. Irregular expenditure

Opening balance	397,787,370	237,410,221
Add: Irregular Expenditure - current year	1,746,218	160,377,149
	399,533,588	397,787,370

Additional information

The irregular expenditure are not recoverable, no criminal or disciplinary steps were taken as a result of irregular expenditures and all material losses as a result of the expenses were written off in the year incurred.

The recoverability of the non compliance with remuneration of Public Office Bearers Act is in doubt and therefore a debtor has not been raised for the excess remuneration paid (refer to contingent asset, note 38).

Supply chain management regulations

In terms of section 36 of the Municipal Supply Chain Management Regulations any deviation from the Supply Chain Management Policy needs to be approved/condoned by the City Manager and noted by Council. The expenses incurred as listed in note 46 have been condoned.

Figures in Rand	2013	2012
-----------------	------	------

46. Deviation from supply chain management regulations

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the accounting officer and includes a note to the financial statements.

Deviations	Sole Supplier	Pref Supplier	Emergency	Total (Vat Incl)
