# **PART 1 – ADJUSTMENT BUDGET**

## **1.1 Mayor's Report**

The purpose of the report is to ensure compliance with Section 28 of the Municipal Finance Management Act, No.56 of 2003 as well as the requirements as promulgated in the Government Gazette 32141 dated 17 April 2009.

Section 28 of the Municipal Finance Management Act, No.56 of 2003 and section 21 of the Municipal Budget and Reporting Regulations necessitates that specific financial particulars be reported on and in the format described, hence this report to meet legislative requirements.

Council approved Annual Budget for the 2017/2018 financial year of R2 480 389 358 as well as the Budget Related Policies of which the Budget Policy formed part of. On 1 July 2017 all municipalities were expected to comply with mSCOA Regulations.

The proposed pay rate was based at 85%, which was informed by past collection trends and debt collection initiatives. The pay rate from consumer services for the first six (6) months of the financial year was 58%. The total income percentage for the first quarter was also at 61%.

## **1.2 Council Resolutions**

The Municipal Finance Management Act requires that the municipality table and adopt the budget and budget regulations. The format of the budget and supporting documentation is prescribed by the Municipal Budget and Reporting Regulations.

## **1.3 Executive Summary**

The Matjhabeng Local Municipality Adjustment Budget for the 2017/18 financial year is compiled in accordance with the prescripts of the Municipal Finance Management Act 56 of 2003, Municipal Budget and Reporting Regulations and National Treasury's MFMA Circular No. 51, 54 and 55.

The main challenges experienced during the compilation of the 2017/18 MTREF can be summarized as follows:

- The ongoing difficulties in the national and local economy;
- Aging and poorly maintained water, roads and electricity infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- The increased cost of bulk water and electricity (due to tariff increases from Sedibeng Water and Eskom), which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Wage increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies;
- Affordability of capital projects – original allocations had to be reduced and the operational expenditure associated with prior year's capital investments needed to be factored into the budget as part of the 2017/18 MTREF process; and

- Availability of affordable capital/borrowing.

The draft adjustment budget for the 2017/18 financial year is based on the actual amounts as at 31 December 2017, which is the first six (6) months of the year. The recommendations for an adjustment budget will therefore only be submitted after the finalization of the processes stated in the Municipal Finance Management Act 56 of 2003 and the Municipal Budget and Reporting Regulations.

Cognizance must also be taken of Section 23 (2) stating that only one adjustments budget referred to in subregulation (1) of the Municipal Budget and Reporting regulations may be tabled in the municipal council during the a financial year, except when additional revenues contemplated in section 28(2)(b) of the Act are allocation to a municipality in a national or provincial adjustments budget. The municipality has not received any additional revenues during the first six (6) months as stated above.

Section 26(6) (b) of the Municipal Budget and Reporting Regulations states that a special adjustments budget must be table in the municipal council when the mayor tables the annual report in terms of section 127(2) of the Act, which may only deal with unauthorized expenditure from the previous financial year which the council is being requested to authorize in terms of section 32(2)(a)(i) of the Act.

The methodology applied during the preparation of the draft adjustment budget was to analyse the votes and identify virements, overspent votes, potential overspending on votes and projections for the rest of the year. The consumer pay rate and percentage total income are below the budgeted percentage of 85%. The consumer pay rate and total income collected was at 58% and 61%. The municipality is currently implementing stringent debt collection efforts and credit control measures to ensure that the pay rate of 85% is reached during the remainder of the financial year.

During the financial year budget transfers and virements were done in terms of section 9 of the Budget policy.

## 1.4 Operating Revenue Framework

In order for Matjhabeng Local Municipality to improve the quality of the services provided it will have to generate the required revenue. The municipality's anticipated revenue was based on a collection rate of 65%. The municipality aspires to improve their collection rate to 75% - 85%. A revenue strategy has been developed to ensure the improved collection rate is achieved.

### Revenue Raising Strategy

- ❖ Rejuvenate disconnection project (Revenue Enhancement Committee) with a revenue protection unit in place to monitor reconnections and disconnections.

## **Operating Budget 2017/18**

### **1. Collection Rate**

The collection rate for the first six (6) months was at 58% for the consumer pay rate and 61% for the total income received. The consumer pay rate only includes income received from consumers and the total income received includes grants received as well. The municipality has not achieved the budgeted percentage of 85% for the first six (6) months.

### **2. Virements**

Virements were done during the financial year in terms of Section 9 of the Budget Policy. The virements were needed to ensure the smooth running of service delivery in the municipality. It is therefore further recommended that virements from bulk services, other materials, consumables, contracted services and operational cost be made to avoid potential overspending on votes and to correct the mSCOA data strings.

### **3. Projected expenditure**

Projections were done on the following votes and the projected amounts for the rest of the financial year are above the balance of the budgeted amount
